RECIPE TO CLEAR A PIMPLY SKIN

Pimples are Impurities Seeking an Outlet Through Skin Pores.

Pimples, sores and boils usually result from toxins, poisons and impurities which are generated in the bowels and then absorbed into the blood through the very ducts which should absorb only nourishment to sustain the body.

It is the function of the kidneys to filter impurities from the blood and cast them out in the form of urine, but in many instances the bowels create more toxins and impurities than the kidneys can eliminate, then the blood uses the skin pores as the next best means of getting rid of these impurities which often break out all over the skin in the form of pimples.

The surest way to clear the skin of these eruptions, says a noted authority, is to get from any pharmacy about four ounces of Jad Salts and take a tablespoonful in a glass of hot water each morning before breakfast for one week. This will prevent the formation of toxins in the bowels. It also stimulates the kidneys to normal activity, thus coaxing them to filter the blood of impurities and clearing the skin of pimples.

Jad Salts is inexpensive, harmless and is made from the acid of grapes and lemon juice, combined with lithia. Here you have a pleasant, effervescent drink which usually makes pimples disappear; cleanses the blood and is excellent for the kidneys as well.

ROAD TO LEBANON FROM WATERLOO IS CUT BY TRAFFIC

WATERLOO, Feb. 27.—Special.—Jerry Heyne received his discharge and returned home last Thursday after serving at Vancouver since early in the war.

The roads between Lebanon and Waterloo have been so cut up by heavy traffic since the freeze that heavy motor trucks are having a layoff. Practically all the heavy hauling has been tied from three of the six timbells located in this neighborhood.

The tie industry has slackened somewhat by the inability to get more contracts from the government, and several mills have shut down indefinitely.

The wood demand must be great, judging by the number of dragsaw outfits in the country.
