who had reached the 85th anniversary of her birth.

Mrs. George Randle of Lebanon was the charming hostess to the Priscilla club and a few friends on Thursday afternoon. The diversions of the afternoon were music, conversation and games appropriate for St. Patrick's Day. The rooms were beautifully decorated with shamrock and daffodils. At the close delicious refreshments were served by the hostess.

The Sunshine Embroidery club of Lebanon met with Mrs. James Burtshaw on Tuesday. Mrs. M. Knapp was leader for the afternoon's program. The subject was Victory Gardens and Peace Flowers. Poems on the subject were read by the members followed by a floral contest in which Mrs. Clarence Ingram won first prize, a potted plant. Mrs. Francis Phelps was an invited guest.

The girls of the gymnasium class of the high school enjoyed a picnic this week in Bryant's Park, on Wednesday evening. A jolly time was enjoyed and an elaborate picnic supper served.

OPPORTUNITY TO AN INDEPENDENT INCOME OFFERED

A NEW MOTOR TRUCK FOR
\$2,000 CASH AND \$25 PER
DAY FOR YOUR WORK

Sounds unreasonable, doesn't it? But it is not as impossible as it sounds. For example: Suppose you are a man of moderate means depending upon your personal efforts for a livelihood and to gain the coveted competency that is every man's privilege and duty. You are probably realizing about \$5 a day for your services. Now suppose you are qualified to become a motor truck operator and should conclude to own and operate a motor truck on contract work, one of our 3½ ton model 'K' trucks with a 3-1-2 yard steel body with hydraulic hoist and dump equipment, such as we are furnishing for the state, county and federal highway road work will cost you approximately \$5,000, payable \$2,000 cash and the balance in payments.

desired to hasten the sprouting the peas may be soaked in water overnight so they will swell and germinate quickly. A free garden book published by the National War Garden Commission, Washington, may be secured at Murphy's Seed Store.

Peas may be planted while there is still light freezing weather, for they are quite hardy. Several plantings should be made, 10 to 14 days apart, in both spring and fall unless very early, midseason and late varieties are planted at the same time. They will not do well during hot weather unless they have a good start and are vigorous when hot weather comes on. They should be well cultivated or hoed to keep up a rapid growth. They do not recover readily if they become stunted.

Not a Bite of Breakfast Until You Drink Water

Says a glass of hot water and phosphate prevents illness and keeps us fit.

Just as coal, when it burns, leaves behind a certain amount of combustible material in the form of ashes, so the food and drink taken day after day leaves in the alimentary canal a certain amount of indigestible material, which if not completely eliminated from the system each day, becomes food for the millions of bacteria which infest the bowels. From this mass of left-over waste, toxins and poison-like poisons are formed and wicked into the blood.

Men and women who can't get feeling right must begin to take inside baths. Before eating breakfast each morning drink a glass of real hot water with a teaspoonful of limestone phosphate in it to wash out of the thirty feet of bowels the previous day's accumulation of poisons and toxins and to keep the entire alimentary canal clean, pure and fresh.

Those who are subject to sick headache, colds, biliousness, constipation, others who wake up with bad taste, foul breath, backache, rheumatic stiffness, or have a sour, gassy stomach after meals are urged to get a quarter pound of limestone phosphate from the drug store, and begin practicing internal sanitation. This will cost very little, but is sufficient to make anyone an enthusiast on the subject.

Remember inside bathing is more important than outside bathing, because the skin pores do not absorb impurities into the blood, causing poor health while the bowel pores do. Just as soap and hot water cleanses, sweetens and freshens the skin, so hot water and limestone phosphate act on the stomach, liver, kidneys and bowels.
