BONELESS BEEF SAVES U. S. ARMY \$73,000 DAILY

War Department Cuts Expenses on Meat Shipments for the A. E. F.

Thousands of tons of boneless beef was shipped to the American Expeditionary Forces in order to cut the cost of transportation and save valuable freight space. This is only one of scores of ways in which the government eliminated unnecessary expense in the endeavor to make every dollar raised through the four popular Liberty Loans go as far as possible.

By shipping all meat for the overseas troops with the bones cut out at the packing houses in America it has been estimated that a saving of \$73,000 daily was made. The suggestion to ship the meat in this economical manner was made by an army man after he watched thousands of tons go for ward by the old method. A carcass of beef contains twenty-five pounds of bone to every hundred pounds of meat and requires twice the shipping space.

It is with such unanswerable arguments as these that the government is replying to the charges that money was carelessly spent during the war making necessary the calling of the Victory Loan.

VICTORY DRIVE MEDALS

Medals made from captured German cannon will be awarded by the Treasury Department to volunteer workers who take part in the Victory Liberty Loan drive for \$5,000,000,000 which will start April 21.

Inscribed on the face of the medal will be the name of the worker and the service for which the medal was awarded.

Zimmerman's Visit Portland—Ed and H. Zimmerman of Halsey passed through the city today for Portland on a business trip.

Sell Chevrolets—C. H. Murphy Motor Co. report the sale today of a Chevrolet car to H. Hotchkiss, of Brownsville.

LETTERS WORK FOR VICTORY LIBERTY LOAN

Yours for the Victory Loan. A prominent business man of St. Louis has suggested that if all business letters were signed in this manner the thought of the Victory Liberty Loan would be so firmly impressed on everyone's mind that it would be much easier to raise the \$5,000,000,000 to be asked for by the government beginning with the fifth drive April 21.

Make your letters work for the Victory Loan. Start in now to boost. Make the slogan "Yours for the Victory Loan" help put the fifth drive over the top.

AMERICANS NEVER QUIT

The Germans found that the American doughboys at the front were not quitters. Let us show those doughboys that the Americans who stayed at home are not quitters. There is no better way to do this than to hold on to the Liberty Bonds we have and buy to the limit when we are asked to take more.

Carter Glass, Secretary of the Treasury, said recently:

"Our boys at the front in the service of the government have never quit. If you sell your Liberty Bonds you quit at a time when the government needs your continued support. Every time you quit by selling your Liberty Bonds you hurt the credit of our government and make it more difficult to finance the war. The cost of the war continues until peace is signed and our gallant boys are brought back to American soil."

There is no excuse for you to sell your bonds unless you are without food or are to be turned out of your home. In a Liberty Bond you have the safest investment in the world. The credit of the United States, whose wealth is estimated at \$250,000,000,000 is guaranteed that you will get your money back. In the meantime your money will be working for you at a fair rate of interest.

Arrives Home—Miss Ora Harkness, who has been traveling with the Ellison-White Chautauqua Co., arrived home last evening and will spend the summer in Albany with her parents, Mr. and Mrs. H. C. Harkness.

WHAT OTHER PEOPLE DO

Snappy Cleanings from Exchanges in Linn and Other Counties of Oregon

Soldiers for Wilson—

To malign the President has become a habit with certain politicians and newspapers; it is noticeable, however, that returning soldiers usually bring home words of praise for Wilson, says the E.O.

Won't Change Time—

Evidently the old tale of noses and faces and spite has not reached the cemetery of things obsolete. Phoenix, Ariz., and the town of Mendon, Ill., have refused to recognize the change of time and are still jogging along an hour in the rear. Perhaps they figure they will have the jump on us of an hour when next autumn comes.

Both Are Hungry—

It seems only right and proper that Hungary and Bolshevism should go hand in hand. It would probably be impossible to find a Bolshevik who is not hungry.—Guard.

They're Busy, Alright—

Linn county has started a movement to bond for a million dollars with which to build good roads. When good-roads microbes get busy in that part of the valley, we may expect a real epidemic of permanent highway construction all over the Northwest.—Salem Journal.
