

# PRINCE ALBERT

the national joy smoke

Copyright 1919  
by R. J. Reynolds  
Tobacco Co.

Tasty red haze, tidy red line, handsome round and half-round tin humidor—and that classy, practical pound crystal glass humidor with pump mister that keeps the tobacco in such perfect condition.

PUT a pipe in your face that's filled cheerily brimful of Prince Albert, if you're on the trail of smoke peace! For, P. A. will sing you a song of tobacco joy that will make you wish your life job was to see how much of the national joy smoke you could get away with every twenty-four hours!

You can "carry on" with Prince Albert through thick and thin. You'll be after laying down a smoke barrage that'll make the boys think of the old front line in France!

P. A. never tires your taste because it has the quality! And, let it slip into your think-tank that P. A. is made by our exclusive patented process that cuts out bite and parch—assurance that you can hit smoke-record-high-spots seven days out of every week without any comeback but real smoke joy!

R. J. Reynolds Tobacco Company, Winston-Salem, N. C.

# CHEVROLET

For Economical Transportation

As a business man you have faith in your judgment. It is your guide. And you are shrewd enough to appreciate comparative values—your judgment tells you that, too.

It is by comparative standards that we would have you judge the Chevrolet. Each Chevrolet represents the utmost for the money, and we are so confident that they will appeal to your judgment, that we are willing to be satisfied with your decision after you have inspected our line, and have had the model you are interested in demonstrated to your satisfaction.

Let us demonstrate. Let us show you what the Chevrolet can do. Price \$857 f. o. b. Albany.

Chevrolet "Four-Ninety" Touring Car.

## Oregon's Largest Check for Charity

Above is a facsimile of the largest check ever sent out of Oregon for charity purposes. Ben Selling, state chairman of the Armenian-Syrian Relief committee, recently sent to the national headquarters \$100,000 as part payment of Oregon's quota. Of this amount Linn county sent \$5,000. The county's quota was \$5,500. Dr. W. P. White, chairman for Linn county, has \$380 on hand and \$120 is still needed to complete the quota. Will 120 people mail

Dr. White a check or money-order for \$1 each that he may close up the account and finally report Linn county as over the top? Dr. White is a stayer and will not give up until the entire amount is subscribed.

What would you think if you were a peaceful resident of Armenia and a horde of murderous, heathenish Turks backed my a more murderous (because they know better) Germans swooped down on your village, murdered your

wife and children, carried off your daughters into hideous captivity, ravaged your fields, stole or killed your stock and laid waste to your orchards? All of this and more happened in Armenia and Syria. And millions of people who lived through or escaped these oracles are now destitute and are looking toward America to save them from starvation, to clothe them and protect them through the emergency.

WILL YOU SEND THAT DOLLAR TODAY?

## PAINT AS AN ASSET.

Bankers Say They Lend More Money on Property When Buildings Are Well Painted.

AN INDICATION OF THRIFT.

One Concern Advances 25 Per Cent. More if Repainting is Done Every Five Years.

Does it pay to paint carefully farm buildings? Does it add to the selling value of a farm when buildings are properly kept up and regularly painted? A careful inquiry of a number of leading bankers in the Mississippi valley, including such states as Iowa, Illinois, Michigan, Ohio, Indiana and Missouri, reveals the fact that in nearly every case the bankers did not hesitate to say that they would lend all the way from 5 to 50 per cent. more on land where farm buildings were well painted and kept in good condition. They maintain that well kept-up and well painted buildings and fences are an indication of thrift and that the

thrift farmer is a good client, and to him money can be safely loaned. An average of the returns from these bankers shows that the increased loan value because of painted buildings is around 22 per cent.

Some of these bankers make interesting comment. A Michigan concern says that, while not especially prepared to advise definitely in response to this inquiry, the officers would loan more money on farms where buildings were painted than where they were not so treated. This bank also finds that where houses, barns and fences are well taken care of the farm is a profitable proposition, and bankers in general consider the farmer a good client. Another Michigan bank says "farm buildings out of repair and peeling paint indicate that the owner is slow pay." Such farms are rated at about one-third of the assessed value for loans. Where the farm buildings are in good shape the rating is one-half. The president of a middle western bank says that when real estate loans are considered, painted buildings are always taken into consideration in making an estimate. The general appearance of the property surrounding the house and barn and also the fields and fences would be carefully observed. He further says that he has no hesitancy in saying that he would absolutely refuse a loan on farms where the buildings were not kept up and well painted. In his judgment, unpainted farm buildings would reduce the loan value at least 25 per cent.

A Minnesota banker says that he is much more willing to loan money where the buildings are well painted. In his particular case he believes that he would loan 20 per cent. more than if the buildings were not properly taken care of. A farmer who will keep his buildings painted takes a much deeper interest in his work than one who does not. Another Minnesota bank says that well painted buildings have resulted in securing from his bank sometimes as high as 25 per cent. more money than where the buildings are not painted. An Ohio concern says that it will loan 25 per cent. more money on a well kept farm where buildings are painted at least once every five years. A southern Illinois bank says that it has no fixed rule about this, but it does make a decided difference when owners of farm lands apply for loans. If the buildings are well painted and thus well preserved the loan rate would not only be cheaper, but the amount of money borrowed would be larger. A northern Illinois bank does not hesitate to say that it would loan fully 50 per cent. more on a farm where buildings were well painted and in good order than where they were not. The vice president, who answers the inquiry, goes on to say: "There probably are many farmers good financially and morally who permit their buildings to remain unpainted, but as a rule the most substantial people who live in the country keep their buildings well painted."

An Iowa bank, through its vice president, states that it would make a difference of at least 25 per cent. in favor of the farm with painted buildings. Another Iowa concern says that it would make a difference of at least

## Your BATTERY Needs Regular Attention

## QUIT MEAT IF YOUR KIDNEYS ACT BADLY

Take tablespoonful of Salts if Back hurts or Bladder bothers—Drink lots of water.

We are a nation of meat eaters and our blood is filled with uric acid, says a well-known authority, who warns us to be constantly on guard against kidney trouble.

The kidneys do their utmost to free the blood of this irritating acid, but become weak from the overwork; they get sluggish; the eliminative tissues clog and thus the waste is retained in the blood to poison the entire system.

When your kidneys ache and feel like lumps of lead, and you have stinging pains in the back or the urine is cloudy, full of sediment, or the bladder is irritable, obliging you to seek relief during the night; when you have severe headaches, nervous and dizzy spells, sleeplessness, acid stomach or rheumatism in bad weather, get from your pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast each morning and in a few days your kidneys will act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate clogged kidneys, to neutralize the acids in urine so it is no longer a source of irritation, thus ending urinary and bladder disorders.

Jad Salts is inexpensive and cannot injure; makes a delightful effervescent lithia-water drink, and nobody can make a mistake by taking a little occasionally to keep the kidneys clean and active.

## Diamond SQUEEGEE TREAD

Mark these 3 Continuous Ribs on the Tread!

How quickly a railroad coach would pound to pieces if it had to jump three inches from one rail to the next. Skipper gaps in the rolling surface of tires are equally disastrous.

These three continuous ribs on the Diamond Squeegie Tread gives smooth a rolling surface as though it was a smooth tread tire. "More - Mileage Ribs" we call them, for they put more rubber right where the wear comes.

Yet that scientifically designed Diamond Squeegie Tread halts forward and side skids. It adds mileage—you'll run a Diamond thousands of miles before you wear down those Squeegie Ribs. Cut your tire upkeep with a Diamond.
