Delicate Garments Daintily Laundered

DO YOU KNOW that we use greater care in washing delicate shirt waists and lingerie than you do yourself. It's a fact! We wash each of these garments separately. Then they are carefully and expertly ironed by hand. So you see there is really no need of you doing this work yourself. If a garment is washable, no matter how sheer it may be, you can send it to us with perfect confidence.

WHAT OTHER PEOPLE DO

Snappy Cleanings from Exchanges in Linn and Other
Counties of Oregon

As Other People Think—

There are people who gladly scheme to increase their own profits but think the country is menaced when a wage advance is granted such as that just given railroad men, says the East Oregonian.

Harrisburg Wants Fair—

The Harrisburg Chamber of Commerce is rapidly completing their initial organization for a South Linn Fair. It is their purpose to incorporate at once and sell stock at \$5 per share and to offer nearly \$1500 in prizes this fall.—Bulletin.

Not His Work—

A Roseburg man went crazy after mowing the lawn and splitting half a cord of wood. Must have been something wrong with him in the first place or he would not have butted into his wife's work.—Bulletin.

They Go Together—

Salem newspapers are bigger and better now than they ever were before, because Salem is a bigger and better town than ever before. Newspapers and the communities in which they are published grow together, except that the newspaper generally keeps a few laps in advance and points the way to progress. No one ever saw a dead community that possessed a live newspaper.—Capital Journal.

Time for Albany's—

With the Round-Up park open for the use of auto tourists as a camping place there will no longer be complaint on this score. We can have one of the best camping grounds in the country and our natatorium and shower baths nearby will not be amiss. The next step will be to have signs posted at suitable places so that tourists may learn the park is open to them.—E. O.

Pessimists Disappear—

Pessimists in Eugene have suddenly become scarcer than Germans in Paris. "The Eugene way" is here and to be the same old way that made the city famous.—Register.

Sawmill About Ready—

Elmer Van Dusen announces that he expects to have the new sawmill which he is constructing and interested in on the Dan Fisher place east of Harrisburg, ready to begin operations in about ten days.—Bulletin.

Salem Prosperous Again—

This is going to be Salem's biggest year of growth, making up for the past five years of comparative inactivity.—Capital Journal.

The Reason Why—

Some people wonder why houses are so scarce everywhere. The answer is simple. Housebuilding was stopped for many months but marriages continued. Marriages are now occurring faster than new houses are built and since each wedding means normally a demand for another dwelling house or an apartment, the explanation is at hand.—E. O.

"If it's thick, heavy sweetening you want stick to your ordinary plug. But for real tobacco satisfaction, you've got to come to good old Gravely."

Good taste, smaller chew, longer life is what makes Genuine Gravely cost less to chew than ordinary plug.

CUT DOWN YOUR FOOD BILL

The cost of food has advanced nearly 100 per cent in the last few years. Every bit of food wasted, either in cooking or in any other manner, directly affects your purse. Most cooking methods are wasteful—shrinkage of foods or through spoilage because of unreliable heat.

THE ELECTRIC RANGE SAVES AND SERVES

Shrinkage of foods cooked in an electric range is remarkably small—less than 1% by any other method. So scientifically is the electric range constructed that with a minimum of attention you are assured uniform, perfect cooking or baking.
