WHEAT AND PROSPERITY

America, thanks largely to her tremendous wheat crop, is on the high road to prosperity.

It has been conceded for years that agriculture was the backbone of our national wealth, even in a so-called industrial age, and that the wheat crop was the great determinant of business conditions. The winter wheat crop is now estimated at 837,000,000 bushels, a gain of 152,000,000 bushels over any previous crop. Together with the spring wheat, which will probably run from 200,000,000 to 300,000,000 bushels, there will be a total production of far more than a billion bushels, taking care of all our own needs and almost certainly leaving an export surplus of no less than 400,000,000 bushels.

Were there not an assured market for the surplus over American needs, this would mean that the government price of \$2.25 a bushel would entail a tremendous financial loss to the country. This condition has been feared by many, and has been undoubtedly the cause of much delay in stabilizing business conditions. This fear should be abolished, for we are assured not only of a record crop but a record market for it.

Europe is still too war-torn to feed herself. The Australian crop is short. That of Argentina is as nothing compared with the needs abroad. Russia, grain center of the eastern hemisphere, which should feed herself and the rest of Europe, is given over to disorder and bloodshed.

This means that, far from being a loss, the American crop will be immensely profitable, that the government instead of giving the farmers a billion dollars or so as a mistaken bonus for an unused surplus will be able to find a market for every bushel raised.

To those who have been waiting for a sign, this should be the answer.

The foundation industry of the country is in the healthiest condition of its history. Other branches of industry should take heart and go ahead.

Now we know why Mr. McAdis. He left the railroads so he could afford to ride on them. Recently he went from New York to San Francisco on his private car, and the expense for the car and party was about \$2,750.

The peace terms are to be ready by May 1st. A May basket for the Kaiser!

MILL CITY MAN GETS CAR IN CANYON

MILL CITY, Apr. 19.—Special.—Virgil Slater, wife and baby, left Mill City April 5 in their car for Athena, Umatilla county. They went on the boat from Oregon City to The Dalles. From there they started across the country in their car, going down into the Deschutes Canyon. As they were going along, the car brake gave way. Dropping the baby on the road, Mr. and Mrs. Slater jumped out of the car. They were much shaken up but not injured. The car went to the bottom of the canyon and was badly demolished. They were able to continue their journey by train. Soon after arriving at their new home, Mr. Slater had an attack of typhoid pneumonia, from which he is recovering.

Francis M. Randall Sr. and wife to J. M. Michelson and wife. Lands in St. James Park Add. Albany.

H. S. RECOGNIZED BY COMMITTEE

Supt. C. W. Boettcher and the patrons of the Albany schools should feel highly elated over the success of the Albany high school in being accepted on the accredited list of the Northwest Association of Secondary Schools. The committee on credentials which convened at Spokane recently placed Albany on the list, which means that "Albany schools are of high standard and that any graduates from the schools are accepted as students in any standardized university or college in the United States."

Fayetteville Notes

FAYETTEVILLE, Apr. 19.—Special.—Mrs. Miller of Corvallis spent a few days at the home of her daughter, Mrs. J. E. Painter. She also visited at the homes of her sons, J. T. and L. C. Miller, all of Fayetteville.

W. L. Grove is to be the new postmaster of Shedd and will soon take charge of his new office.

David Hayes, night watchman at a Portland shipyard, was here for a few days' rest, returning to Portland on Thursday morning.

EAT LESS AND TAKE SALTS FOR KIDNEYS

Take a glass of Salts before breakfast if your Back hurts or Bladder bothers you.

The American men and women must guard constantly against Kidney trouble, because we eat too much and all our food is rich. Our blood is filled with uric acid which the kidneys strive to filter out, they weaken from overwork, become sluggish; the eliminative tissues clog and the result is Kidney trouble, bladder weakness and a general decline in health.

When your kidneys feel like lumps of lead; your back hurts or the urine is cloudy, full of sediment or you are obliged to seek relief two or three times during the night; if you suffer with sick headache or dizzy, nervous spells, acid stomach, or you have rheumatism when the weather is bad, get from your pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate clogged kidneys; to neutralize the acids in the urine so it no longer is a source of irritation, thus ending bladder disorders.

Jad Salts is inexpensive; cannot injure, makes a delightful effervescent lithia-water beverage, and belongs in every home, because nobody can make a mistake by having a good kidney flushing any time.

MISFITS -- HIS COLUMN

BY F. P. NUTTING

Timely Comments and Gleanings of News from Here, There and Everywhere by a Former Editor of the Democrat

An interesting thing in Portland is last "all aboard" announcement. Eats. Every downtown businessman and woman has to eat at noon, and the question is: Where? Some declare that no matter where they go they are sorry it was not somewhere else. As a matter of fact this city has as good eating places as any big city, and the rates have been comparatively low, never oppressive like those of some cities.

I have tried 30 or 40 different places. Finally to settle down to four or five, according to whim, and changeable taste.

The person who doesn't wish to plunge into the higher prices and more elaborate menus of the big hotels can find plenty at the noon lunch at from 10 or 15 cents to 45 or 50c. Light eaters are often seen limiting their lunch to buns or rolls and a cup of coffee, 10c. One place right in the heart of the business section serves a fine lunch for 25c, consisting of soup, choice of several kinds of meat, in small quantity, mashed potatoes, bread and butter, pie, pudding or ice cream. A very popular lunch is served at the Seward, a frequent resort for Albany people, for 35c and 45c. Several prominent restaurants give a choice of menus by number, ranging from 20c up. I have frequently seen people eating hotcakes and coffee at noon and even in the evening—20 cents.

Some prefer the cafeteria style, paying for what they get, taking it on a tray, crowded along by a hurrying, dyspeptic lot of people, who mash one as if trying to reach a train with the

Ford THE UNIVERSAL CAR

Ford Cars are important servants everywhere. They help the family enjoy life, bring the pleasures and advantages of the town within reach of the farmer and give practical service every day in country and town. They require a minimum of attention; any one can run the Ford and care for it, but it is better to have repairs and replacements taken care of by those who are familiar with the work and have the tools, the genuine materials, and skilled men to do the work promptly. We pledge Ford owners the reliable Ford service with real Ford parts and standard Ford prices.
