### Will Contested—

The will of the late Anna Barr, who resided in Lebanon for many years prior to her death, is being contested today before County Judge W. R. Bilyeu. About 25 witnesses have been called in the case. Mr. and Mrs. Jesse Barr were among the earliest settlers of the Holly neighborhood and owned one of the best farms in Eastern Linn county. They have left a large family all of whom are respected and highly

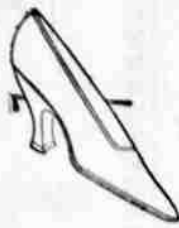

esteemed citizens of the county.

### Visits Son—

Mr. McDowell of Holley transacted business at the courthouse today and visited his son, I. A. McDowell, one of the leading merchants of the city. Kelly from Corvallis—

W. E. Kelly of Corvallis and son Lloyd were in the city today. Lloyd left on the noon train for Louisa, Mont., where he has a homestead.

## "NO MORE SLEEPLESS NIGHTS" BATHES INTERNALLY

Mr. J. B. Burrows, 271 West North St., Decatur, Ill., writes Tyrrell's Hygienic Institute of New York as follows:

"I am still using the 'J. B. L. Cascade' once a week, and find it most

efficient for keeping me in fine condition. It acts as a sedative for tired nerves and has been a great help for sleeplessness. I have frequently arisen from bed and used it in the middle of the night with satisfactory results."

The reason for this remarkable result is because the functions cannot work properly when there is accumulation of waste in the lower intestine. The "J. B. L. Cascade," by the simple process of properly applying warm water, eliminates all this waste and causes the functions to work smoothly and properly.

Over half a million intelligent Americans are now using the Cascade with similar results.

It is the invention of Chas. A. Tyrrell, M. D., of New York, a noted specialist on internal bathing for 25 years.

It will be shown and explained to

## Safety First For Your Family

We have no desire to cast aspersions upon anyone seeking to earn an honest livelihood in this country. We do feel, however, that we should sound a note of warning to housewives regarding the washing of bed and table linen and wearing apparel.

When a case of almost incurable skin disease has been traced to the fact that such a disease existed in the home of the laundress, and when a man contracted skin disease, that most dreaded of all diseases, through sending shirts and collars to a Chinese laundry, is it not time to awaken to the danger of awoken to the danger of contagion under such conditions?

Every garment, every piece of goods that comes into this laundry must be thoroughly sterilized for it is first soaked in ammonia and refined soda so as to loosen all dirt and stains and in succeeding processes it is boiled and hot rinsed until germs cannot live.

Science plays its part in a steam laundry and modern methods render contagion impossible.

Be Fair to yourself and your family. Patronize a steam laundry. Try our way this week and measure cost fairly. On that basis, outside of the safety basis, you will win by sending the wash to us.
