

Below Your Equator

there is, in the form of the intestinal canal, a wonderful laboratory, within which are manufactured the very materials which are vitally necessary to sustain life, and also violent poisons which directly and indirectly cause disease and death.

Food waste, if allowed to accumulate, stagnates and gives rise to poisonous matter. This, if allowed to be absorbed into the blood, produces 90% of the disease that attacks mankind, from a transient neuralgia to a permanent hardening of the arteries.

Bright's disease, liver trouble, heart enlargement, high blood pressure, skin affections, rheumatism, insomnia, nervous exhaustion, mental affections, all may be caused by such self-poisoning, the warning of which is obstinate or habitual constipation.

Nor is it safe or sufficient to take castor oil, pills, salts, mineral waters, etc., in the effort to force the bowels to

move. Not only will the constipation grow worse with the continuance of such remedies, but the dose must be constantly increased with an ever-weakening effect.

But Nujol acts differently—and successfully. Nujol is not a drug—does not act like any drug.

Nujol brings about thorough and natural bowel evacuation, at regular intervals, because it helps Nature to restore and to maintain the proper mechanism by which body waste is removed and its stagnation prevented.

Nujol overcomes constipation by removing its causes. Get a bottle of Nujol from your druggist today and send coupon for free booklet—*"Thirty Feet of Danger."*

Warning. Nujol is sold only in sealed bottles bearing the Nujol Trade Mark. Insist on Nujol. You may suffer from substitutes.

Undersea Photos.
Prof. W. H. Longley, of Gouray college, Baltimore, has completed a set of thirty-two under-water photographs of the brilliantly colored tropical fish which inhabit the waters of Hawaii. Taken with a specially designed camera, Prof. Longley hopes to develop the plates to reproduce the natural colors. He believes they are the first photographs of the kind taken. The plates have been packed in airtight cases for shipment to Baltimore, where they will be developed.

Magnanimous.
"That boy Josh of mine has a mighty forgiving nature," remarked Farmer Cornstossel.
"How does he show it?"
"Comes back home a sure-enough hero and treats me 'jes' as kind an' considerate as if I had never once put on airs an' ordered him to the woodshed fur discipline."

Transformation.
"Has life in the military camp done your husband any good?"
"He's a different man, my dear. He sweeps the floor, washes the dishes and peels the potatoes without a word."—*Browning's Magazine.*
