

Looks just right

YOUR back is just as important as your front, so far as your clothes are concerned. You don't see it very often, but other folks do. Better have it look just right.

Hart Schaffner & Marx clothes

The line from shoulder to waist is a very important one, so far as the looks of a coat are concerned. The curve of the lapel, the placing of the pockets.

THESE ARE SOME OF THE THINGS THAT MAKE THESE FAMOUS CLOTHES FAMOUS

CORVALLIS

Oregon State Agriculture College and United States Department of Agriculture Cooperating Extension Service.

Mr. Wm. Scudder, R. F. D. 1, Box 5, Albany, Oregon.

June 3rd, 1919.

My dear Mr. Scudder—

We have tested the sample of milk you submitted to this department sometime the first part of last week, and find that the bacteriological count runs 4,000 per cubic centimeter.

If this represents a fair sample of the milk which you are selling in Albany, it is good quality and you ought to be congratulated on the fine product you are producing.

Milk running so low as this cannot be other than clean, produced under the best conditions and very wholesome for human consumption.

Very truly yours,

G. V. COPSON,

GVC:LL

Associate Professor of Bacteriology.

HERE IS THE PROOF

Don't take our word for the purity of our milk. You can send a bottle to Corvallis for analysis at any time and get the same answer.

In Portland a guarantee of not more than 10,000 bacteria per C. C. is required. Compare this with our test.
