Gary Motor Trucks FOR THE FARM CITY OR INTERURBAN

A GARY TRUCK IS THE TRUCK TO BUY because there is a size for every requirement, and because every truck represents the highest degree of perfection as exemplified by the best balanced truck built, composed of units of the highest order obtainable.

GARY MOTOR TRUCKS are made in six models: Model F 1 ton-G 1 1/2 ton-H 2 ton-HU 2 1/2 ton-K 3 1/2 ton-V 5 ton, and all are equipped with the war-famed Buda Motors, the Motor adopted for government work in France. The HU or YU with the force feed lubricating system through a drilled crankshaft in all large sizes.

THE SHELDON WORM DRIVE AXLE is another important feature of construction of Gary Motor Trucks. It is the costliest, the oldest and highest priced worm drive axle built. All Gary trucks use Sheldon axles.

THE SPRINGS—THE TUTHILL SPRINGS—titanic fronts and banded rears. The rear springs which carry the load are guaranteed for the life of the truck against breakage in the center.

THE BUILT UP CAST TANK RADIATOR. The Gary built up cast tank radiator with oval tubular core, finned for radiation, is the last word in radiator construction. It is invincible in strength, over-size in capacity and 100 per cent in cooling efficiency.

GARY MOTOR TRUCKS are of the same high class in every other unit and detail of construction and are warranted for one full year.
