TO RESTORE FAMOUS PARK

Bowling Green, With Its Ancient Fence, Will Again Become Show-Place of New York.

Modern New York will probably better appreciate its Bowling Green fence, recovered and restored to view by the Broadway association, for the incidental publicity of the restoration. When the fence was new, Bowling Green was an important part of the town, and the New Yorkers of 1770 considered it well worth while to import the fence from England and pay \$200 for it. One is reminded that, shortly before the fence was put up, the loyal citizens, grateful for the repeal of the Stamp act, had adorned Bowling Green with a leaden equestrian statue of George III. For a while fence and statue stood there together; then the Revolution came, and the "Liberty Boys" pulled the statue from its pedestal. The fence remained till 1914, minus the gilt crowns that the "Liberty Boys" had hammered off the tops of the fence posts, but the famous park, lost in the growing city, was gradually neglected. When the fence returns to it, the park will be replanted with shrubbery, and Bowling Green made as much as possible like its historic self. —Christian Science Monitor.
