The Walls of Paris

One of the most striking works of the rebuilding of France is the demolishing of the remnants of the old wall and fortifications...

A part of the space will still be used for military purposes. But all

that was gloomy and dingy and confining is to disappear. Now, clean, airy barracks will be erected for the soldiers. Another section of the space is to be turned over to the state...

This change will add about 1500 acres of breathing space to a city already crowded by its industrial suburbs.

Although Parisians will undoubtedly miss for a while the defensive works to which they have so long been accustomed, and foreign readers of Dumas, Victor Hugo and Dickens' "Tale of Two Cities" will not be able to imagine Paris without the gloomy portals through which many of their favorite heroes have passed...

Of course, the Senate might sign that treaty with a blanket reservation reserving for the United States the right to interpret any clause as it pleases, from time to time...

Thereseon so many people can't stand the hot weather is, they've got too rich a mixture in their carburetor.

Anyway, anti-intoxication is still

possible without breaking any law except the law of common sense.

Some scientific person announces that bread contains on-half per cent alcohol, and sometimes more. Now, don't go and drink all the bread in the house.

Romantic bridal couples may be married in airplanes, as they're doing just now with considerable frequency; but they've got to come down to earth just the same.

There is nothing that makes an American Bolshevik so mad as to see him sent back to the happy land ruled by Bolshevism.

"Price Boosters Face Jail Terms if Probe Can Locate Guilty". The "if" is mightier than the "probe".

Oregon Industrial Activity

Homestead.—Copper Dyke Mining Co. has started sinking in the Cap Miller shaft.

Eugene.—Building permits show increased activity.

Stanford.—Improved city water system will decrease insurance cost.

Weyerhaeuser officials see great industrial future for Klamath Falls.

Pendleton.—Proposed Elk's Triangle business block and theatre to cost \$167,000.

Pendleton.—Pipeline to Chaplist Springs all laid; system soon completed.

Vale.—Big dam at Riverside to be completed by October first.

Roseburg.—Work on Tiller Trail cutoff to Crater Lake to commence Sept. 1.

Klamath Falls.—New laundry enlarges, takes new name and puts in new machinery.

With one exception, highway from Oregon City to Portland will soon be entirely completed.

Klamath Falls.—Marsh lands surrounding upper Klamath Lake to be dyked and lands reclaimed.

Amity.—Derrick erected to sink test oil well on Newman ranch.

Banks.—Logging railroad to go in from Wilkesboro to Vernonia.

Commercial clubs should take an interest in increasing berry acreage as the product will bring profitable prices for years to come, and a large income per acre from sale of rooted plants.

Springfield.—Ice and cold storage plant resumes after two years.

New sawmill in prospect for Alleghany section in Coos county.

Portland and Southeastern to build from Mt. Angel to Bend.

While educated, college and technical help is abundant there is increasing scarcity of farm and common labor over the country.

Newport.—First contract for new macadam highway to connect Newport with Willamette Valley let.

Roseburg.—Umpqua Growers' Association purchases site for modern cannery. Expect to employ 200 women during peach-pear season.

Contracts for paving final 11.8 miles on highway from Pendleton to state line beyond Freewater to be let Aug. 5.

Eugene.—Contract let for construction of \$10,000 unit of Eugene Fruit Growers' association.

Astoria.—Novel bridge erected across John Day river few miles east of here costing \$25,000.

Gresham.—New garage erected for Standard Oil Co.

Cottage Grove gets new general merchandise business.

Medford to have a new general printing and publishing shop.

Nitrate deposits on Sheep Mountain and Stinking Lake to be developed.

Bend 1500 horsepower electric unit goes in on Tumalo.

Speed—and the price of Meat Forty-eight hours after cattle are purchased by Swift & Company they are hanging up as meat; within two weeks the fresh meat has been sold. This speed means money in the pocket of the one who raises the live stock and of the one who eats the meat. It means a rapid "turnover" of capital and investment—making possible the transaction of daily business on a narrower margin of profit. Speed permits Swift & Company to do a successful business on a profit of a fraction of a cent per pound. Such speed, with its rapid turnover and smaller profits would be impossible without the efficient organization and wide scope of Swift & Company, the results of fifty years' experience in handling meat. Do you believe that government interference with the complicated and efficient machinery of the packing industry can be of any benefit? Experience with government regulation of railroads and telephone and telegraph might suggest an answer. Swift & Company, U. S. A. THIS SHOWS WHAT BECOMES OF THE AVERAGE DOLLAR RECEIVED BY SWIFT & COMPANY FROM THE SALE OF MEAT AND BY PRODUCTS 85 CENTS IS PAID FOR THE LIVE ANIMAL 12.36 CENTS FOR LABOR EXPENSES AND FREIGHT 2.04 CENTS REMAINS WITH SWIFT & COMPANY AS PROFIT
