

Always the Best Values

THIS STORE clings tenaciously to the small-profit idea. By it and through it we can turn stocks more quickly and replenish the various departments with fresh, new merchandise right straight along. When stocks accumulate there's less new stock to choose from and a "skimped" variety—undesirable features from both the customer's viewpoint and our own.

Operating on small profits means that we must depend upon the customers' satisfaction with values and coming back—therefore values must always be pleasing or the store does not thrive.

Supervisor C. C. Hall

Leaves for The Santiam Forests
C. C. Hall supervisor of the Santiam National forest reserve left this noon for Gates and on to Detroit to ascertain the true condition of the fire situation. Mr. Hall reports that there is no new developments reported to day. He believes that much of the recent fires have been caused by an unusual amount of electrical storms in the mountains. In normal times a long list of the records of the fires in the mountains goes to show that more than 50 percent of the fires are caused by lightning and during recent weeks more than the usual electrical storms have occurred in the mountain districts causing numerous fires.
