RELIEF FROM SUN SOUGHT IN OREGON

California People Came to Albany to Escape Monotony of Sunshine

Mr. and Mrs. J. A. Barker, of Santa Cruz, on Monterey Bay, California, arrived in the city today seeking a location in the Willamette valley and a small house in Albany for the winter. Mr. and Mrs. Barker are interesting people and state many customs and historic facts concerning southern California.

Santa Cruz is the English name for "Beautiful City of the Holy Cross" in Spanish the original name of the city. Mrs. Barker states that the sameness of climate and the bright sunshine on the bay and the reflection of the sun on the deserts of southern California and Arizona where they have traveled had seriously injured her eye sight and as a result she wanted to live in Oregon where there is more of a variety of climate.

They have resident property there that they want to exchange for Albany or Linn county property. They state that Santa Cruz is a successful business city, canneries and fisheries giving employment to a large number of people. The whaling business is one important industry. Eight whales were caught last week which are being prepared at this time for the market.

In addition to the ordinary amount of baggage they brought with them two Tasmanian war dogs which are beautiful animals and of a rare species of the canine family.

SOAP AND WATER CONQUERED T. B. IN SIBERIA

Belgrade, Serbia, American physicians and Red Cross workers conjured the typhus epidemic in Serbia by using soap, scrubbing brushes, kerosene, disinfectants and delousing machines, says Lieutenant-Colonel Edgar Erskine Hume, of Frankfort, Kentucky, director of the American Red Cross here.

"We went into the homes of people and carried the patients out," said Oume. "At times they were reluctant to leave and we had a hard task overcoming their fatalism. Often we had to use force. We cleaned them, scrubbed them and literally turned the hose on them."

"Until an effective serum is found the most potent agent in combatting the disease is soap and water. Mix this with American energy and enthusiasm and you have a combination that will check, if not overcome, any disease that has its origin in dirt."

Prussian Officers Restless
Cologne, Reduction of the German army made necessary by the conditions of peace has caused great unrest among the regular officers with regard to their future. German army papers report that this feeling of uneasiness among the officers is only natural as on August 1, 1919, in spite of numerous retirements, there were still 29,000 Prussian and Wuertemberg regular officers in the army. This number must be reduced to 8,000.

space recently to a discussion among medical men here as to the cause of a local epidemic of hicoughs. Some physicians attributed it to the too emphatic "kick" in substitutes for liquor and others said the paroxysms were caused by an "attenuated influenza germ."

Ask Aid Against Flies
KHARKOV, SOUTHERN RUSSIE, Medical officers of Denikin's Volunteer Army have appealed to the American Red Cross to aid them in their fight against the swarm of flies that infest the country in general, and the field hospitals in particular, like a pest. The army is without insecticides and has no screening material.

Glass of Hot Water Before Breakfast a Splendid Habit

Open sluices of the system each morning and wash away the poisonous, stagnant matter.

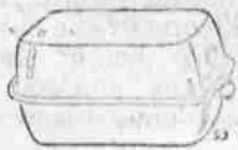

Those of us who are accustomed to feel dull and heavy when we arise; splitting headache, stuffy from a cold, foul tongue, nasty breath, acid stomach, lame back, can, instead, both look and feel as fresh as a daisy always by washing the poisons and toxins from the body with phosphated hot water each morning.

We should drink, before breakfast, a glass of real hot water with a teaspoonful of limestone phosphate in it to flush from the stomach, liver, kidneys and ten yards of bowels the previous day's indigestible waste, sour bile and poisonous toxins; thus cleansing, sweetening and purifying the entire alimentary tract before putting more food into the stomach.

The action of limestone phosphate and hot water on an empty stomach is wonderfully invigorating. It cleans out all the sour fermentations, gases, waste and acidity and gives one a splendid appetite for breakfast and it is said to be not a little while until the roses begin to appear in the cheeks. A quarter pound of limestone phosphate will cost very little at the drug store, but is sufficient to make anyone who is bothered with biliousness, constipation, stomach trouble or rheumatism a real enthusiast in the subject of internal sanitation. Try it and you are assured that you will look better and feel better in every way shortly.

Body Association. Since her arrival in this country about two years ago her work has been confined, almost exclusively to appearances in the great educational institutions and as soloist with the symphony orchestras. Madame Zard has appeared in concert in most of the big colleges in the west. She sang at the Oregon State Normal, at Monmouth and will come to this city from the O. A. C. at Corvallis, where she will sing the night before her Albany engagement. Madame Zard has been creating a veritable furore wherever she has appeared and return engagements have been sought in every instance. Albany is fortunate to be included in the itinerary of the distinguished artist. When war was declared Madame Zard was one of the leading sopranos of the Vienna Grand Opera Company. She has appeared with distinguished success at the opera of Berlin, Hamburg and has sung at the renowned Wagnerian festival of Bayreuth. Her English diction is nearly perfect. Most of her programs are sung in English. The Italian and French numbers will be translated into English by Madame Zard before she sings them.

Trade Association for South and Central America announced recently that its special representative in Mexico reported conditions as being particularly favorable in view of the opportunities open to German trade. The Mexican agent reported that there was an urgent demand for those goods which were exported by Germany before the war and consequently a splendid opening.
