It takes an 11-foot fence to prevent mountain deer from jumping into barn lots, but the elk with their sharp antlers make short work of woven wire fences.

FIRST NATIONAL HAS HAD BUT 5 PRESIDENTS

In the haste in reporting the election of officers of the First National Bank given in yesterday's papers, it was neglected to state that P. A. Goodwin and Dr. J. P. Wallace were elected vice-presidents to succeed A. C. Schmitt, who was elected president. The by-laws of the bank call for the election of two vice-presidents, but heretofore only one has been named. Both Dr. Wallace and Mr. Goodwin have been connected with the bank for many years.

During the life of the bank but five men have held the position of president. John Conner, who started the bank in 1871 held the office until 1888. He was succeeded by L. Flinn in that year, and he held the office until his death in 1904. He was succeeded by W. E. Langdon, who served until his death in 1919 when S. E. Young became president. Upon Mr. Young's death last month the place became vacant again and was filled by the election of Mr. Schmitt.

They also shipped one hundred car loads of apples for which the growers expect to receive \$2.50 per box. Mr. Burton reports business good and the growers optimistic over the prospects in the fruit industry.

Fall of New Mexico, requesting President Wilson to sever diplomatic relations with Mexico. The committee hopes to hear the Secretary today.

WORK SLACKER TO BE AIDED

American Legion to Look After Shifty Brothers Who Lose Jobs

Eliminating the "work slacker" is the new job which the American Legion has taken upon itself, acting in conjunction with the War Department's chain of employment bureaus throughout the country. This type of ex-service man, while not numerous, is occasionally a serious detriment to the work of placing ex-soldiers and sailors in satisfactory jobs. Their attitude of shiftlessness after getting the place causes dissatisfaction among employers who are really trying to help, and give a black eye to other service men who still bleed work.

Practically all the posts of the Legion now have employment committees. In some cases these committees have taken over all the task of finding jobs for their fellow service men. In other localities they cooperate with the War Department. In Bridgeport, Conn. where the work slacker has been a serious evil, the Legion keeps a special file of such cases of repeating in jobs. As a rule a heart-to-heart talk from a comrade in arms has been enough. In other cases a refractory man has been denied the services of the employment office altogether.

HAMMOND MILLS MAY CLOSE DOWN

Shortage of Cars May Force Suspension; 700 Men Would be Effected

The present car shortage presents a serious situation to the lumber mills in this district and more particularly the Hammond Lumber Company, which is the largest lumber manufacturer tributary to Albany. Unless some relief in the car situation is given immediately this large plant will be closed down and between 600 and 700 workmen thrown out of employment.

The report is given on good authority this mill is between 200 and 300 cars behind on delivery of orders, and the docks and warehouse of this company at Mill City are crowded with lumber ready for shipment. The company is not furnished 10 per cent of the number of cars required to handle their present orders and it is understood they have orders to the amount of several million feet sold at the present time.

Local retail yards in this city are turning down outside orders in this territory as it cannot make immediate delivery, owing to the present conditions. Unless immediate relief is given this institution in the way of cars to move the stock they have on hand it will be obliged to shut down indefinitely, which means a great loss to local merchants, who derive a substantial revenue from the wages paid mill labor.

It is stated that while some manufacturers in other lines of business seem to be supplied with cars, the lumber mills are experiencing extreme difficulty in getting anything near their present requirements. With this serious situation something should certainly be done to keep such plants in operation, it is declared.

COMMITTEES ARE OUT TOMORROW FOR \$20,000 FAIR FUND IN ALBANY

Eight Sub-committees to Cover City Thoroughly; Inestimable Benefits to Accrue to City and County.

ALL MUST GIVE AID

First Great Fair Will More Than Repay Outlay for Buildings, Grounds, and Purchase of Rights.

"The citizens of Linn County, and particularly the citizens of Albany have expressed themselves as being very desirous of having the Fair transferred from Scio to the County Seat. The location of the Fair at the County Seat will be of particular benefit to the citizens and merchants of Albany.

It will mean that annually there will be held a gathering in this city of practically all the citizens of this county. This gathering will last from three to five days, and will give the merchants an opportunity to show and dispose of their wares, such as they have not had in the history of Albany. There are great advantages that accrue to the county as a whole, but Albany will reap a special benefit from the Fair.

This runs the preamble of a spirited statement of the fair committee this morning. Continuing, the statement says:

"It has been agreed that we are to raise \$20,000 to purchase grounds on which to hold the Fair, to build buildings and to conclude the deal with Scio.

"Albany is to raise at least one-half of this amount. A committee has made a careful survey of the business men and citizens who will be particularly benefited by having the Fair located here. The amount to be raised has been apportioned among the citizens, and tomorrow, Friday, eight committees will canvass the city. The men making the canvass are business men, their time is valuable, and they have no time to argue with the citizens of Albany as to whether or not they shall do their part. Surely there is no citizen or business man in Albany who is willing that someone else should pay his share. Let each one do his part cheerfully and promptly, and it will greatly lighten the work of the Committees who are out soliciting. We can get the Fair no other way. We all want it. Practically every merchant will get his money back the first year, and possibly more. Let's take hold of the situation hopefully and willingly, and with a determination that each one will do his part. Assist the committees in every way possible. A good up-to-date County Fair located at the County Seat, with the whole county behind it means better, and bigger things for our County, and better and bigger things for Albany."
