TRADE AT HOME STORES

Although there is still a vast amount of money going from Linn County to mail order houses, as is shown by post office money order receipts, the amount is not as large in proportion as it has been in times past. This is largely due to the fact that home merchants are becoming better advertisers and the buying public has confidence in the goods they offer. Home people know that by trading at home they have a "come back" on home merchants, and that the goods must be right to permit a continued stream of business. And it is cheaper in the long run.

Local merchants have set aside 10 Saturdays for Economy Day and each Thursday the Democrat will print bargains of merchants who appreciate your keeping prosperity at home. By trading at home you are helping yourself and boosting for a better and more prosperous community.
