POPULAR GIRL ANNOUNCES ENGAGEMENT

The event which claimed the attention of Albany society this week was the announcement of the approaching marriage of Miss Annie Lee Fortmiller to Mr. Clarence Wiles which will take place at the home of Miss Fortmiller's parents, Mr. and Mrs. Fred Fortmiller, January 15, 1920.

The news was made known at a small party Monday evening, when Miss Carolyn Wright invited the members of the A. M. A. club of which Miss Fortmiller is a member to spend the evening with her, at Miss Wright's home, 732 Walnut St. The rooms were bright and pretty in the Christmas decorations. The evening's pleasure were sewing, music and dancing, after which Miss

Wright served a delightful four-course luncheon. Red place cards marked covers for the guests around three prettily appointed small tables. The favors were white nut cups tied with red mullin and contained red candy in keeping with the color scheme of red, green and white, which was also carried out in the viands. Each table was centered with a miniature Christmas tree, prettily trimmed and holding a comic gift for each girl which caused much merriment. When Miss Ruth Livengood unwrapped her parcel, she found a daintily engraved card bearing the announcement which she read to the guests.

Miss Fortmiller is a charming young lady, the only daughter of Mr. and Mrs. Fred Fortmiller, and one of Albany's most popular members of the younger society set. She was graduated from Albany high school with the class of '18 and attended the U. of O. and is a member of the Pi Beta Phi sorority.

Mr. Wiles is the only son of Mr. and Mrs. E. F. Wiles. He is a graduate of Albany high school and attended

O. A. C., and is a member of Alpha Tau Omega fraternity. He spent a year in France with Co. D. 318th engineers. The young couple will make their home on the Wiles ranch where a beautiful modern new bungalow elaborately furnished awaits them.

"TONES that are reproduced truer, fier, sweeter." "Music that in both spirit and letter is restated with greater beauty." "All records transcribed with greater fidelity."

Golden opinions like these are showered on The Brunswick by its hearers everywhere. And why

Because, with its many other betterments, it has an exclusive, new Method of Reproduction.

This Method of Reproduction for which The Brunswick Phonograph is famous, includes two scientific features—the Ultona and the Tone Amplifier.

The Ultona is a scientific creation which enables one to play all records with faithful regard for the requirements of each make. It is not in any sense a combination contrivance, but involves a fundamental principle of sound reproduction.

With but a slight turn of the hand, it presents the correct weight, precise diaphragm and proper needle.

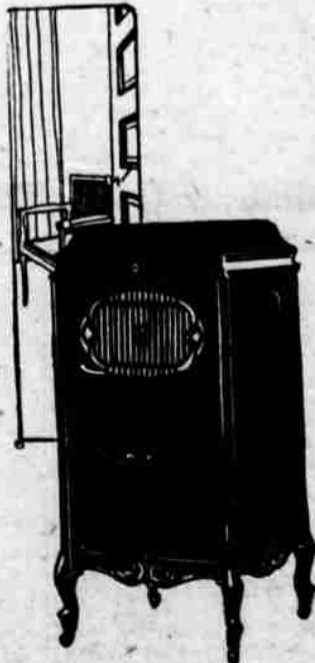

The Tone Amplifier is the vibrant all-wood throat of The Brunswick.

It is oval in shape and made entirely of rare moulded hollywood.

By it, sound waves are projected into full rounded tones — tones that are richer and more natural.
