## WEBSTER TELLS HOW IT'S DONE

### Liquor Making Explained in Perfect English by Little Book

FOR WORTH, Tex.—Texas lawmakers forgot to condemn one little book when they framed the prohibition act barring from the state all formulae for making spirituous liquors.

Complete instructions on the manufacture of "authoritative" fluids may be found in the latest edition of an authoritative dictionary. Spread on a page is a working diagram of a whiskey still and a definition of the word "still" that would be a guidance for the most ignorant. The diagram explains without words just how the cold water is carried into a distren and the overflow carried off.

"Dictionarise are certainly handy books," according to the man who made this "discovery."

### Horses Killed for Hog Feed on Range

BOULDER, Mont.—A ranch near here has been killing range horses for hog feed. The range horse has no commercial value and eats up valuable forage.

So far as is known, no commercial horses have been killed for hog food, contrary to reports to that effect.

## HEAVY MEAT EATERS HAVE SLOW KIDNEYS

**Eat less meat if you feel Backsachy or have bladder trouble—Take glass of Salts.**

No man or woman who eats meat regularly can make a mistake by flushing the kidneys occasionally, says a well-known authority. Meat forms uric acid which excites the kidneys, they become over-worked from the strain, get sluggish and fail to filter the waste and poisons from the blood, then we get sick. Nearly all rheumatism, headaches, liver trouble, nervousness, dizziness, sleeplessness and urinary disorders come from sluggish kidneys.

The moment you feel a dull ache in the kidneys or your back hurts or if the urine is cloudy, offensive, full of sediment, irregular of passage or attended by a sensation of scalding, stop eating meat and get about four ounces of Jad Salts from any pharmacy; take a tablespoonful in a glass of water before breakfast and in a few days your kidneys will act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate the kidneys, also to neutralize the acids in urine so it no longer causes irritation, thus ending bladder weakness.

Jad Salts is inexpensive and cannot injure; makes a delightful effervescent lithia-water drink which everyone should take now and then to keep the kidneys clean and active and the blood pure, thereby avoiding serious kidney complications.

## 600 Characters are Taught Chinese

PARIS (By Mail)—The new Chinese phonetic system of about 600 characters recently approved by the Chinese national Board of Education, has been taught with excellent results among the 120,000 Chinese brought to France by the French and British for war work, according to Young Men's Christian Association officials. Most of the Chinese were unable to read their language when they came here but now a Chinese paper printed here has a circulation of 8,000 among them.

## Lepers to Have Own T. R. Memorial Stone

HONOLULU, T. H.—The leper patients at the Kalaupapa settlement, Island of Molokai, instead of contributing to the national fund for a Roosevelt memorial, will pool their contributions and erect a memorial to the lonely Isle.

This announcement was made here by J. D. McVeigh, superintendent of the settlement.

## Heavy Demand for Lumber in Montana

MISSOULA, Mont.—Unusually heavy demands for lumber, due to gradually increasing prices throughout and since the war period, have been made at the local headquarters of the forest service, according to semi-annual reports which have just been issued from the department of silviculture.

Applications for chances involving millions of feet of timber have been filed, and the officials are busy preparing data on forest lands at a basis for determining the possible growth and cut in the spring market.

## Earnings of the Mint

WASHINGTON—Earnings of the United States Mint for the fiscal year 1919 were \$8,369,971.01, according to the report of the Director, just issued. Of this amount \$4,136,777.58 was the gain from the manufacture of nickel and bronze coins.

## IN THE COUNTY COURT OF THE STATE OF OREGON FOR THE COUNTY OF LINN.

In the Matter of the Estate of Charles A. West, Deceased.—Notice. Notice is hereby given that I was, on the 16th day of September, 1919, duly appointed administrator of the estate of Charles A. West, deceased, by the County Court of Linn county, Oregon, and have qualified as such.

All persons having claims against said estate are hereby notified to present the same duly verified at the office of my attorney, B. F. Mulkey, 403 Corbett Building, Portland, Oregon, within six (6) months from the date hereof.

Date of first publication, December 8th, 1919.  
(Signed) H. A. WEST,  
Administrator.  
B. F. MULKEY, Attorney,  
d8-15-22-29-J5

## CONVENTION MAY BE AT FRISCO

### Bay City Offers Largest Financial Guarantee For Democratic Meet

WASHINGTON, D. C., (Special)—Seven cities are in active competition for the privilege of entertaining the next Democratic National convention, the place of which will be decided by the Democratic National Committee at its meeting in Washington on January 8. The cities thus far in the contest are Chicago, St. Louis and Kansas City, Cleveland and Cincinnati, Indianapolis and San Francisco.

According to information which has come to headquarters, San Francisco is prepared to equal or exceed the financial guarantee of any other city in the contest. A large delegation of Californians is to appear in behalf of San Francisco at the National Committee's meeting.

It is announced that members of the Democratic National Committee have made no pledges or commitments of any kind in advance of the meeting at which the place of the next convention is to be determined. The claims of everyone of the seven rival cities will be heard fully and fairly, it is stated, before definite action is taken.

## Yellowstone City Granted Rights

LIVINGSTON, Mont.—Yellowstone, a thriving little city which for a number of years has been trying to escape from the jurisdiction of the forest service, at last has been given permission to incorporate. The town lies within the forest limits and, until freed, was obliged to comply with all the laws of the forest service.

Long before Montana thought of going "dry", for instance, liquor was forbidden under the forestry laws. Many other restrictions prevailed, among which was that the resident forester was the "boss" of the town.

## Six Biddies Solve Henfruit Problem

CLEVELAND, O.—Adopt six hens and avoid \$1.00 eggs, is the advice of A. F. Cooper, of Pittsburgh, president of the American Poultry Association, who attended the recent poultry show here.

"The reason eggs are selling at one dollar a dozen," he said, "is because this country is one hundred million laying hens short. The way to bring down the price is for city folks to enter the chicken business in a modest way."

## Lava Rises 200 Feet In Kilauea Crater

HILO, Island of Hawaii, T. H.—Lava in the pit of the volcano Kilauea rose two hundred feet in four days recently, following a drop a few weeks previously of six hundred feet in a few hours.

Volcano observers, calculating on the connection between activity in Kilauea and the volcano of Mauna Loa, believe the present lava rise in the former may indicate that the recent great eruption of Mauna Loa is not completed. It is evident, observers declare, that the pressure from below is increasing daily and that this shortly may cause another great outbreak of Mauna Loa.

Lava in the pit of Kilauea is rising with abnormal violence indicated by the appearance of welling springs of extremely liquid melt, at a level of more than one hundred feet above the famous lava lakes. These springs are surging through the wall cracks back of the benches and already have commenced to pour in brilliant cataracts into the boiling lakes beneath.
