BE PRETTY! TURN GRAY HAIR DARK
 Try Grandmother's Old Favorite Recipe of Sage Tea and Sulphur.
 Almost everyone knows that Sage Tea and Sulphur, properly compounded, brings back the natural color and lustre to the hair when faded, streaked or gray. Years ago the only way to get this mixture was to make it at home, which is messy and troublesome. Nowadays, by asking at any drug store for "Wyeth's Sage and Sulphur Compound," you will get a large bottle of this famous old recipe, improved by the addition of other ingredients, at a small cost.
 Don't stay gray! Try it! No one can possibly tell that you darkened your hair, as it does it so naturally and evenly. You dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning the gray hair disappears, and after another application or two, your hair becomes beautifully dark, glossy and attractive.
 Wyeth's Sage and Sulphur Compound is a delightful toilet requisite for those who desire dark hair and a youthful appearance. It is not intended for the cure, mitigation or prevention of disease.

Y. MEN WORK AMONG CAMPS

Red Triangle Hut Spring up in Logging Camps of the West; Need Filled

The Red Triangle huts promise to become almost as common a sight in the lumber camps in Canada as they were in France. The Y. M. C. A. secretaries find that the needs of the lumber jacks, separated from the recreational facilities of the cities and towns, are not materially different from those of the soldier in the army camps, and that the experience gained by the Y. M. C. A., in serving men abroad can be applied at home.

The first of the Y. M. C. A.'s to be established in the lumber camps of British Columbia, was opened with the Bioedel, Stewart & Welch Company in their camp at Myrtle Point near Vancouver. About the same time another secretary undertook to serve as well as he could five camps situated close together in the East Kootenay District in the interior of the province. This was to be a four month's demonstration to show the value of the Association work, but before three months had elapsed one of the companies decided to have a secretary for its own camps, three others voted to have a secretary among them and the fifth is planning on having a secretary of its own within a few weeks.

Similar experiments have been carried on in the lumber camps of the western part of the United States and have proved successful. The lumber jacks, however, are not wholly satisfied with having only men secretaries, and from several points applications have been made for women workers such as served overseas.

Confession Clears Mystery of Assault

MARSHFIELD—Roland Hoffman, a 19-year-old boy living in Bay Park, a suburb of Marshfield, has confessed to the attack upon Miss Ruth Anderson, a week ago when she was assaulted on a dark street in Marshfield by a man who tried to chloroform her.

Hoffman, according to those who know him, is a peculiar young fellow, and is believed to be an incompetent.

He confessed to the attack and said he was trying to scare Miss Anderson.

Pricked Finger on Shell, Actress Dead

PARIS—A slight prick on the end of a little finger which she received while opening an oyster caused the death of Mile. Henriette Dale, a Parisian actress who was known to the stage as "Dixie," because she had spent several years in Alabama.

"Dixie" was celebrating her return to Paris from Marseilles with a dinner to some friends in her apartment when she injured her finger.

She died two days later from lockjaw.

Bad Check Passed On Lee Gilbert

SALEM, Jan. 5—Victor P. Franklin, who was arrested at Corvallis last Sunday, accused of passing a forged check upon Lee Gilbert of this city, in payment for an automobile, yesterday was committed to the state training school by Judge Bushey, with the recommendation that he be paroled by the institution officials.

Acting upon this recommendation, L. M. Gilbert, superintendent of the school, released Franklin.

Home Burns While Man Takes Bath

The home of J. A. Reynolds, about six miles south of Independence, was destroyed by fire.

Mr. Reynolds was in the house alone at the time, taking a bath. He was forced to rush through the flames to safety. He was seriously burned about the head and upper part of the body and was taken to the Salem hospital.

The house with all its contents were completely destroyed. Polk Itemizer.

Hair Grown on Bald Head

After going almost totally bald, a New York beauty found something which brought out a new luxuriant growth of hair of which he is so proud that he will send the information free to anyone who asks for it. Write: John H. Britain, Station F, New York, N. Y. Many women and men have grown hair after all else failed. Cut this out, show others; this is genuine.

TOURIST TRAVEL TO PICK UP

1920 to See Additional Gains in Pleasure Traffic on Western Highways

SEATTLE—Heavy increase in tourist travel noticeable during 1919, will be even greater during 1920, according to Herbert Cuthbert, executive secretary of the Pacific Northwest Tourist Association, who has just returned from a month's trip to eastern cities arranging with tourist agencies and railway traffic officials to direct the rising tide of tourist travel to the Pacific Northwest.

Tourist agents and traffic officials all predict a large increase in travel to the Pacific Northwest for 1920. Mr. Cuthbert states, basing their predictions on awakened interest in the Pacific Northwest, throughout the United States and Canada and the large increase of travel shown in 1919.

Mr. Cuthbert spoke upon the Pacific Northwest tourist campaign at the convention of commercial and tourist association secretaries at St. Paul and secured the passage of resolutions to congress in support of requested appropriations for road work and other improvements in the national parks, following this up by taking the resolutions to Washington, D. C. and doing personal work with congressional committees and Western members of congress to secure the passage of the appropriations.

SOLONS BACK UP IN HASTY COURSE

Republicans Kill Army Camp Provisions, Then Attempt to Rectify Error

WASHINGTON—After inserting in the army appropriation bill of the extra session a provision which halted real estate purchases at various army camps, the Republican House has just passed a special measure in effect rescinding its action regarding three of the largest camps in the country and directing that these camps be completed.

Meanwhile, because of the real estate rider on the regular army budget, hundreds of householders who were compelled to give up their lands when the government took possession of the areas involved, have been denied settlement of their contracts. The validity of such contracts and the value of the camp sites selected by the War Department now receives belated recognition from the present House of Representatives.

Man Broke Wife's Leg For Christmas, Charge

NEW YORK—Charged with deliberately breaking his wife's leg, Frank Strepsky, 38 years old, a clerk, was held on \$3,500 bail in Essex Market court.

The incident is said to have occurred during a Christmas eve celebration at Strepsky's home. Witnesses say their host in a sudden outburst of hilarity, possibly wrath, they do not know which, grasped his wife, Annie, 23, by the right foot. Placing her limb across his knee, he broke it.

The woman was removed to Bellevue hospital.

Beards are invariably worn by Arabs, because Mohammed, the founder of their religion, never shaved. A long, flowing beard is regarded by them as a sign of distinction.

For a wager of one thousand francs a French cabman recently undertook to smoke a hundred strong cigars in two days. In the first twenty-four hours he had disposed of sixty-six; and, after a two hours' rest, continued his task with such vigor that by noon of the following day the stump of his last cigar was burning his lips.
