Perfection of Value-In-Money Motor

A \$2,000 CAR FOR \$1720

We received a wire today that the price of the Nash car will be advanced on January 31.

While the prices of other cars have been advanced two and three times during the past 18 months the price of the Nash has remained the same. This shows that the Nash organization has not followed the policy of taking advantage of the willingness of people to pay well for what they want. Increased wages and the increase in the cost of materials have made it necessary for the price of the Nash to be raised as the car contains the very best materials and the highest-priced mechanics are employed in its manufacture.

We have not been appraised of the exact amount of the raise but will know in a few days. In the meantime, we advise our customers that if they want the best value in the market for \$1720, delivered in Albany, they should place an order for the Nash at once.

Other cars are advancing in price and we confidently believe that they will remain higher than at present for several years at least.

ESSEX ACHIEVEMENTS IN 1919

THE FOLLOWING are just a few of the outstanding achievements which have so firmly established Essex leadership during its first year.

An Essex stock chassis established a new world's mark for long distance endurance, covering 3037 miles in 50 hours on the Cincinnati Speedway under American Automobile Association observation.

In Iowa, a fully-equipped Essex set another new endurance mark by traveling 1061 miles in 24 hours over frozen dirt ads.

At Grand Rapids, Mich., a standard Essex established a new mark for a non-stop road run to Mackinaw City and return, 521 miles in 21 hours, 34 minutes.

In the famous "Rim-of-the-World" contest at San Bernardino, Calif., an Essex won first place in its class, climbing eight miles to an elevation of nearly 5,000 feet in 19 minutes, 4 seconds.

In Australia, an Essex made the fastest time in its class in the Automobile Club's Hill Climb at Sidney against a field of 16 other cars, all but two of which had higher horse-power ratings.

In Oregon, an Essex made the 105-mile run from Astoria to Portland in two hours, 21 minutes, beating the best previous time by 51 minutes.

In California, the Essex beat the best previous time by 19 minutes in a 110 mile road race between Stockton and Lake Tahoe.

At Stockton, Calif., the Essex was the first of 12 contestants to finish 1919 Endurance Run to the Yosemite.

At Fargo, N. D., an Essex won a trophy for establishing the fastest time in a 5-mile free-for-all race.
