DAIRYMEN'S MEET SET FOR JAN. 21

Oregon Dairymen's League Offers Interesting Program at Eugene

Oregon Agricultural College, Corvallis, Jan. 17—The annual meeting of the Oregon Dairymen's league will be held at Eugene January 21-22. The first day's program will feature an address of welcome by C. D. Rorer, president Bank of Commerce, Eugene, followed by the president's annual address, A. E. Westcott, Banks. "Can Dairymen Cooperate" will be the subject of an address by Alma D. Katz, president of the Oregon Dairymen's league. This will be discussed by such leading dairy authorities as J. D. Mickle, state dairy and food commissioner, M. S. Schrock and R. C. Denny. "Teaching the Public What It Ought to Know," by Mr. Mickle, and "Why Milk," by E. C. Calloway, have been scheduled for the first day. The business session will be held the second day, "Selecting a Foundation Herd," by E. A. Rhoten, "Feeding for Milk," Farmer Smith, "How to Develop a World Record Heifer," by J. J. VanKleck, "How the Dairymen Can Utilize his Experience," by Ira P. Whitney, and "Control of Abortion and Sterility," by Dr. B. T. Simms, O. A. C., are other leading addresses. The luncheon Thursday will be under the auspices of the Eugene chamber of commerce, which insures a jolly up as well as good eats, according to Prof. P. M. Brandt, dairy chief at O. A. C., the secretary-treasurer.

An eel which whistles when excited is one of the curiosities found in Fiji.

Methodists to Hear of Work In So. America

The Methodist Church is going to run an "extra special service Saturday night" when the Rev. Corwin F. Hartzell, Superintendent of the Bolivia Mission, South America, will give an illustrated lecture in the church. The title of his lecture is, "South America, the Continent of Great Need and Opportunity." The public is coming to realize that these missionaries, with their keen observance of conditions, their closeness to the people, and their complete familiarity with the most intimate phases of life, are in the best position of any class of people to give the world a clear idea of world tendencies. "There is no doubt that South America, our nearest neighbor," says Rev. G. C. Spencer, "will influence our country more profoundly than any other continent, and dependable information regarding its people is being eagerly sought." A recent survey of one of the universities revealed the fact that out of a student body of more than five thousand there were only five, either students or members of the faculty who acknowledged any faith in God. Illiteracy reaches in some countries as high as eighty percent. Rev. Mr. Spencer, pastor of the Methodist Church believes in giving not only his church, but the public, the very best information obtainable, and seizes every opportunity to have these special visitors lecture on the great questions and problems of the day. He is providing on this occasion an evening of rare merit in information and entertainment. There will be no charge for admission.

The Alexander Column in front of the Winter palace in Petrograd, which measures eighty-four feet in length, is believed to be the largest single stone ever cut and polished by human hands.

BROKE ALL MULISH RECORDS

If Animal Committed Suicide He is the First of His Tribe Thus to Shuffle Off.

We are not prepared to accept without mental reservation the story from Brooklyn, that a mule, perhaps an ex-service mule, committed suicide by plunging through the plate-glass front of an undertaker's office, after imbibing freely of 2.75 per cent beer. We know the mule; have known him from an early age, and we know the decimal stuff that passes for beer. That is to say, we have heard about it. No self-respecting mule—particularly if he came from Missouri—would drink 2.75 in the first place, and in the second place, if he did drink it it would not go to his head. It might go to his legs, his hindlegs, which are naturally of a nervous temperament, and likely to reach out at any time. We can imagine no better way to put a "kick" in the brew than by first putting the brew in a mule. The average mule is looking for an excuse for kicking, anyway. Feed him up on the beer of commerce and leave the rest to his natural predisposition. He will register disgust in the obvious way. And then again mules never commit suicide. We have heard of men committing suicide by twisting the mule's tail, but the hybrid himself is much in love with life. There's even a rumor in the South and Southwest that mules never die; that, barring accidental dissolution, they live forever. Be that as it may, we do not recall that we ever saw a mule suffering from age, or that was feeble in his right hind shoe. —New York Morning Telegraph.

P. E. O. To Entertain

COMB SAGE TEA INTO GRAY HAIR

Darkens Beautifully and Restores Its Natural Color and Lustre at Once.

Common garden sage brewed into a heavy tea, with sulphur and alcohol added, will turn gray, streaked and faded hair beautifully dark and luxuriant. Mixing the Sage Tea and Sulphur recipe at home, though, is troublesome. An easier way is to get the ready-to-use preparation improved by the addition of other ingredients a large bottle, at little cost, at drug stores, known as "Wyeth's Sage and Sulphur Compound," thus avoiding a lot of muss.

While gray, faded hair is not sinful, we all desire to retain our youthful appearance and attractiveness. By darkening your hair with Wyeth's Sage and Sulphur Compound, no one can tell, because it does it so naturally, so evenly. You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning all gray hairs have disappeared. After another application or two your hair becomes beautifully dark, glossy, soft and luxuriant and you appear years younger. Wyeth's Sage and Sulphur Compound is a delightful toilet requisite. It is not intended for the cure, mitigation or prevention of disease.
