"The Spoilers" To Be Shown at The Globe Today

The Selig Polyscope Company, in picturing the virtue and undying romance of the Beach's "The Spoilers," which plays at the Globe Tuesday and Wednesday have made a new revelation historical, showing once again that fiction has a higher aim than fact in its large appeal to interest; in a new pictorial triumph both to impulsion and release human interest.

This thrilling romance of the gold fields of the great Northwest, if strong in sentiment, is steeped in fierce primitive fashions inspired by insidious evils that invest the closing coils of a great conspiracy for robbing honest toil of its golden fruits, and it has braved privations with death ever imminent, day by day or through the long night of the Midnight Sun. These strong elements in the melting pot of this romance, fuse to make a great work intense, picturesque and potential beyond compare, as far as current production of motion pictures is concerned.

CONVENTION ENDS OSTEOPATHIC

Valley Members Go to Portland to Attend State Association

The Osteopathic convention which closed last night with a big banquet at the Albany hotel, was well attended by the osteopaths of the valley towns and was a decided success.

Dr. S. C. Edmunton, of Los Angeles was the principal speaker. He gave valuable instructions in Osteopathic principle and technique. Many clinic cases were treated, giving illustrations of how to treat patients.

Most of the doctors went to Portland today where they are to attend the state convention tomorrow. The Oregon convention will probably join the western convention at this time which includes all doctors this side of Utah.

The valley organization holds a meeting at some point in the valley each month and secures some eminent authority to lecture on some practical phase of the work.

Among those present here were, Dr. Simons, of Eugene, Dr. De Lapp, of Roseburg, Dr. Kent, of Brownsville, Dr. Roberts, of Corvallis, Drs. Weller and Weller of Eugene, in addition to the Albany doctors who were all in attendance.

government, but during the war Russia fell and since the war England and France have become indifferent, and on account of the petty politics in the United States not endorsing some type of treaty, the Turks have become more oppressive.

Since the Armenians returned home they are being murdered and are not permitted to establish homes. What they need most is money to buy war material to protect themselves against the Turk and also, to buy modern machinery to till the soil and rebuild all the industries destroyed by the invaders.
