Plight of Lumber Industry

Lumbering, one of the great industries of the west, has been having a large sized sample of long distance political control of the railroads.

Production of sawmills in Western Washington and Western Oregon has been dropping off for past two months because of lack of cars in which to ship and on January 23 1920 it was only 46 percent of normal. Demand for lumber is greatest on record, mill yards are full to overflowing, many of the biggest producers have been out of the market for weeks while other mills are closed entirely. It is estimated that only about ten per cent of business offered is being accepted.

Lumbermen have done everything in their power to get the R. R. Administration to act and now a few empires are reported trickling west but lumbermen do not expect to get more than 60 percent of requirements at any time this year and they now have 12,000 cars of filled orders.

Eastern officials in charge of cars supply are blamed for the condition as they apparently have no conception of the tremendous needs of the lumber industry.

The average business man can realize the helplessness of the lumbermen when he considers that appealing to officials of the R. R. Adm., is a whole lot like appealing to officials of the P. O. department, often takes years to get action on such minor details as establishing a new mail box or postal route.

KEEP URIC ACID OUT OF JOINTS

Tells Rheumatism Sufferers to Eat Less Meat and Take Salts.

Rheumatism is easier to avoid than to cure, states a well-known authority. We are advised to dress warmly; keep the feet dry; avoid exposure; eat less meat, but drink plenty of good water. Rheumatism is a direct result of eating too much meat and other rich foods that produce uric acid which is absorbed into the blood. It is the function of the kidneys to filter this acid from the blood and cast it out in the urine; the pores of the skin are also a means of freeing the blood of this impurity. In damp and chilly cold weather the skin pores are closed thus forcing the kidneys to do double work, they become weak and sluggish and fail to eliminate the uric acid which keeps accumulating and circulating through the system, eventually settling in the joints and muscles causing stiffness, soreness and pain called rheumatism.

At the first twinge of rheumatism get from any pharmacy about four ounces of Jad Salts; put a tablespoonful in a glass of water and drink before breakfast each morning for a week. This is said to eliminate uric acid by stimulating the kidneys to normal action, thus ridding the blood of these impurities.

Jad Salts is inexpensive, harmless and is made from the acid of grapes and lemon juice, combined with lithia and is tried with excellent results by thousands of folks who are subject to rheumatism. Here you have a pleasant, effervescent lithia-water drink which helps overcome uric acid and is beneficial to your kidneys as well.

A New Voice

If you haven't heard it yet, you will soon—reverberating up and down through the land wherever farmers grow grain and livestock and fruits and vegetables and eggs and cotton and wool—echoing through every city where consumers now groan at the high cost of food and clothing. Dean Davenport, of Illinois, writing in

The COUNTRY GENTLEMAN

about the new American Farm Bureau Federation, well calls it a National Voice for Agriculture.

He believes—and let me tell you he knows—it is this great new farmers' movement is going to mean big things for all of us. What do you know about it now? Well, he is writing four splendid articles—read them all. Let's see, four times five cents a copy makes twenty cents. Phaw!

You can buy THE COUNTRY GENTLEMAN for a whole year for only a little bit more. And out of the 52 big weekly issues you'll get ideas and entertainment enough to repay your dollar many, many times over. Let me send in your subscription today for a whole year. It costs just \$1.
