## CHANDLER SIX

Famous For Its Marvelous Motor

## Chandler Strides into Full Leadership

If there has ever been any question as to Chandler leadership of the medium-priced fine car field, it is answered now. The great Chandler Six is sweeping its market. It displaces less efficient cars. It steps in to serve those who previously have chosen only high-priced cars. And it pleases everywhere.

From two thousand to three thousand discriminating Americans bought Chandler cars—open and closed—every month this Fall. And at no time has the demand been fully met. Thousands have waited months for their new Chandlers, and have felt repaid for waiting.

Nothing could more clearly show the regard in which America holds the Chandler Six, than the patience with which these thousands waited for weeks and months for their Chandlers. They waited because they knew what they were waiting for—because they knew it was worth waiting for.
