

NATIONAL THRIFT WEEK IS NOW ON

Campaign Started on Birthday of Benj. Franklin, Greatest Exponent

Thrift week beginning yesterday is being observed in 42 states of the union, and will doubtless be considered by all thoughtful citizens of Oregon as a time to make new resolutions and begin a career in the wake of that distinguished patriot, Benjamin Franklin, who was born in the old town of Boston 214 years ago last Saturday, and on whose example thrift week is being observed.

In this rapid-firing age the example of Franklin is considered by many leaders of action to be a guide in this time of world's unrest that should be observed as never before.

Thrift day, is the anniversary of the birthday of Benjamin Franklin, a thrift leader.

National Thrift week will be celebrated throughout this country January 17-24. The United States government has requested its universal observance by all organizations. It has especially requested the co-operation of the general federation of women's clubs, with its more than 2,000,000 members, to drive home the need of national thrift in all the departments of life. Miss Georgie A. Bacon, 37 Dean street, Worcester, Mass., director of thrift work in the general federation, has a complete organization in 42 states, so that thrift meetings will be held in every county and community in them at the appointed time. Miss Bacon has laid especial emphasis on thrift in the home, in that 70 per cent of the common buying of this country is done by women, principally housewives. She has also prepared a decalogue on thrift for the American housewife and her family to follow, and it is upon these that the meetings will base their discussions.

The "commandments" are:

- 1, Work and earn; 2, make a budget; 3, keep a record of expenditures; 4, have a bank account; 5, carry life insurance; 6, make a will; 7, own your own home; 8, pay your bills promptly; 9, invest in government securities; 10, share with others.

University of Indiana Holds Centennial Today

BLOOMINGTON, Ind., Jan. 20.—Untouched by age, save as time has added vigor and strength, Indiana University can now contemplate "the splendid harvest of a hundred years". A century of active work has been rounded out, and today the alumni gathered from far and near to help their alumnate celebrate her centennial. State officials and other invited guests attended the exercises, which included addresses by Dr. Jacob Gould Schuman, president of Cornell University, and other educators of wide reputation.

Indiana University is one of the oldest State universities in the West. It was founded as a State seminary in 1820 by act of the legislature, and a few years later its name was changed to Indiana College. The university was given its present name and style in 1838, and it now comprises half a dozen colleges and schools, including the liberal arts college, founded in 1828; the law school, organized in 1842; the school of medicine, organized in 1903; the graduate school, opened in 1904, and the school of education, established in 1908.

The history of the university is closely interwoven with the early history of the State of Indiana. The official history of the institution says that; Indiana was the first State university to adopt the policy of co-education. Women were admitted to equal privileges with men at the university in 1867, and the first woman was graduated in 1879.

Unusual Value—In Tires for Small Cars

Not only is characteristic Goodyear merit conspicuous in Goodyear Tires for small cars but ordinarily the first cost is found to be not greater than that of other tires; often it is actually less.

The combination of unusual value in first cost and very low final cost, of course, is a result of Goodyear experience, expertness and care employed as incidentally in the making of 30x3-, 30x3½- and 31x4-inch tires as it is in the construction of the famous Goodyear Cord Tires used on the highest-priced automobiles.

For this reason more cars using these small sizes were factory-equipped last year with Goodyear Tires than with any other kind. Get this unusual tire value to enjoy on your Ford, Chevrolet, Dort, Maxwell, or other small car, at the nearest Goodyear Service Station. Get these tires and Goodyear Heavy Tourist Tubes at this station.

30x3½ Goodyear Double-Cure Fabric, All-Weather Tread..... \$20.00

30x3½ Goodyear Single-Cure Fabric, Anti-Skid Tread..... \$17.65

Goodyear Heavy Tourist Tubes are thick, strong tubes that reinforce casings properly. Why risk a good casing with a cheap tube? Goodyear Heavy Tourist Tubes cost little more than tubes of less merit. 30x3½ size in water- proof bag \$3.90
