## Mill City Items

MILL CITY, Ore., Jan. 26—The freezes will benefit the fruit crop next year. It is a good thing to turn hogs in the orchard in the fall and let them root the ground around the trees. Hogs around the roots can't stand frost.

Erer Simmons, of Sodaville scores heavily laden trucks. We can only remedy it by voting more taxes and building paved roads. Dont cuss the county court and the road patrolment. Vote the special road tax and they will mend the holes.

Ed Davis has been appointed road patrolman for Rock Creek district. Ed was not a candidate. "The office sought the man."

Ed Trask was reappointed patrolman for the Mill City district. He will serve a third year. The two Ed's are both honest men. They will do honest work and there will not be any grafting.

The new Mill City bank keeps messrs. Arnold C. Hill busy during banking hours. Mr. Arnold purchased the Shaw building. The bank and R. R. office are in the lower floor. The P. O. and living rooms are in the second floor. Mr. and Mrs. Arnold have moved in over the bank. No chance to loot that bank now.

Moore and Syvertson, of near min to have employed a company from Washington to transport logs from the woods to their mill on trucks.

The Hammond Co. have renewed logging since the holidays and are running two trains daily. They are piling surplus logs in piles. They have built two piles 80 to 100 feet high. They swing the logs up with a carrier that works like the hay carrier in a barn.

Wood in Mill City is nearly as costly as wood in the valley cities. It is due to the fact that the lumber companies have logged off most of the timber on the near by ranches. It is two costly to get it from the mountains.

Lester Mason is home on a furlough from France. He belongs to the 5th Marine and was in the St. Mihiel, Argonne and other battles. He will return to France soon. His experience in Germany does not give him a very favorable opinion of the German Army officers. They are arrogant, conceited and look upon the private soldier and the common people as so much cattle.

E. I. Shepard is getting over a paralytic stroke slowly. He has sold his large band of goats to a Mr. Neibert, who has a large number of goats in mountain pasture near Gooch.

Wm. Stitt has rented the Wolfe place. He will go in the goat business. He brought up a large number from the lower valley.

Roy Taylor has bought the William Turnidge place on Kings Prairie. Also one forty acres of the pioneer Hennes ranch. He and his wife are cooks at camp 22.

### Mallines Carillons Busy.

The carillons of Mallines have never been heard so much and to such splendid effect as of late. The truth is that Mallines has undertaken to get together a sufficient sum of money with which to present to St. Quentin a new carillon, the Germans having seized the bells of the French town. So every carillon of Mallines has been ringing out pealing. There have been carillon concerts, one of the performers on the bells of the cathedral of St. Quentin being the bell ringer of St. Quentin himself. The hymn which he played embodied the motifs of the "Marseillaise" and the "Brabançonne."

### All Busy.

"What's your wife doing?"  
"Preserving watermelon rind."  
"So?"  
"And the kids are enthusiastically supplying her with the material."  
—Louisville Courier-Journal.

### Canada's Fuel Resources.

The fuel resources of Canada are situated in the extreme east and west and the western part of Alberta; the lignite coals are situated in the provinces of Alberta and Saskatchewan, but lying between the limits of these deposits is a great stretch of territory devoid of coal measure of economic value. The 12,000 square miles of bent logs are situated in this area.
