STAND TOWARD LABOR IS STATED

American Legion Issues Statement on Attitude Towards Workers

PORTLAND, Ore.—Franklin D'Oliver, National Commander of the American Legion, from National Headquarters at Indianapolis, has issued the following statement regarding the attitude of the American Legion toward organized labor.

"The attitude of the American Legion towards Organized Labor is exactly the same as its attitude towards all groups of American citizens who are interested in a square deal for all in the maintenance of law and order and the protection of the institutions handed down to us by our forefathers.

"The preamble of our Constitution expresses very clearly the purposes of the American Legion.

"The purpose of The American Legion is two-fold—service to our comrades and service to our country.

"Under the head of 'service to our comrades we will exert all of our influence and all of our strength to the end that the ex-service man, especially the disabled man and his dependents and the dependents of those who paid the supreme sacrifice, shall receive that just, and fair treatment which they have reason to expect from a patriotic and liberal country.

"In serving our country we shall endeavor to keep alive that spirit of

service which induced us all to respond to our country's call in the time of her need even to the extent of being willing to pay the supreme sacrifice. And this we propose doing by assisting in the maintenance of a hundred-percent Americanism based on fair play and a square deal for all.

"The members of organized labor are patriotic American citizens and their loyalty. Consequently on the purposes of The American Legion both they and we are in accord. Many of our most loyal members are members of Organized Labor, and it is our hope that we may be able to convince every ex-service man who is a member of Organized Labor that our purposes are the same as loyal citizens and that every ex-service man in Organized Labor will join The American Legion. All ex-service men who are members of Organized Labor have proven their loyalty and their patriotism to the country and now appreciate their responsibilities as citizens, and we therefore hope it will not be long before they all are active members of The American Legion."

SHOW WAR'S APPALLING COST

Figures Reveal Price World Paid to Prevent Hunnish Hordes Extinguishing Light of Liberty.

Some comparative figures which force a realization of the magnitude of the world war are given in Henry Ford's Dearborn Independent, from which is quoted:

"There were 19 major wars fought in the world in the 117 years from 1793 to 1910. The late war cost 50 per cent more in lives and cost 700 per cent more in money spent than the whole 19 other wars put together.

"The most costly in lives of the previous wars was that between England and France, 1793-1815, a total of 1,000,000 men having perished.

"Next came the war of 1854-'56, in which England, France, Sarlinia, Turkey, Austria and Russia fought; 900,000 men were killed.

"The more recent war between Russia and Japan came third, claiming the lives of 555,000 men.

"In our own Civil war both sides together lost 494,000 men, ranking fourth in loss of life in the great wars previous to the late one.

"In the struggle between France and Germany, so disastrous to France and which played a very important part in the recent peace settlement, 311,000 lives were lost.

"We Americans who remember or have read of the Civil war, of Gettysburg, of Pickett's charge, of Sherman's march to the sea, of Andersonville, have been wont to look on it as one of terrible slaughter—and it was.

"But Russia alone lost more than three times as many men in the late war as were lost by both the North and the South in the Civil war.

"Germany lost more than three times as many.

"France lost nearly three times as many.

"Great Britain lost nearly twice as many.

"Austria lost nearly twice as many.

"So great has been the development in the engines of death that it is almost impossible to conceive the increase of fatalities in the late war as compared with previous wars.

"There were 93 years of war among the various nations in the 117 years prior to 1910.

"As nearly as can be learned, 5,008,007 men lost their lives in those wars.

"That would mean 73,885 lives lost a year, or about 200 a day.

"In the late war there were 200 men killed an hour, about 4,800 for every day of the war; a total of 7,450,200, according to the best available figures. That would be about 1,750,000 a year.

"In money cost of previous wars the French-English war, 1793-1815, comes first with its tax of \$6,250,000,000."
