To Build Peace Arch on Line With Canada

BLAINE, Wash., Jan. 28.—Erection of a huge Memorial Arch on the international boundary here to commemorate the century of peace between Canada and the United States is being urged by good roads men of Washington and British Columbia.

Tentative plans call for the erection of the arch in a big park to be established on the Pacific Highway on both sides of the boundary. The city

of Blaine is willing to purchase the American share of the park if the British Columbia parliament will buy the Canadian side.

Samuel Hill, of Seattle, president of the Pacific Highway Association, is leading the movement for the arch. Recently Mr. Hill and several Washington and British Columbia good roads men asked Premier John Oliver of British Columbia to aid in promoting the project. Mr. Oliver promised to consider the matter.

BOYS AND GIRLS EARN \$33,000

Products Valued at \$66,095
Produced by 2595
Club Workers

Oregon Agricultural College, Corvallis.—Oregon club boys and girls—2593 of them—produced during 1919 livestock, corn potatoes, garden truck, canned goods, and other products valued at \$66,095.02, according to the annual report of H. O. Seymour, state leader of boys' and girls' clubs. Net earnings of \$33,095.40 are shown after deducting for labor, rent, purchase of animals and all other materials.

These figures are based on reports of the club boys and girls who actually completed their work out of the 13,000 enrolled at the beginning of the year. Every county in the state was represented with Multnomah, Clackamas, Coos, Douglas, and Marion in the lead.

The pork production project shows the greatest profit with \$6,625.75 cleared from 447 market hogs and 52 brood sows. A large number of these are pure breeds as 56 members report having purchased registered hogs which will be used next in raising more pure bred stock. The vegetable gardening project ranked second in value, 470 members showing a profit of \$6,267.10. The 293 poultry club members raised 4,792 chickens, 46 turkeys, and 150 ducks, and sold 2348 dozen eggs, making a total profit of \$4,439.81.

Canning club girls canned 9479 quarts of fruit, 3461 quarts of vegetables, and 568 quarts of meat and fish besides drying 434 pounds of fruit and vegetables with a net earning of \$3,701.24. Portland boys and girls enrolled in the milk goat project report caring for 64 goats valued at \$2,565.25, and making an earning of \$2,053.50. Rabbits numbering 3415 and valued at \$5,122.50 were raised by rabbit club members.

Although Oregon is not considered a corn growing state, corn club boys

cleared \$1,329.10 from their plots. The best corn in the state was raised by Averet Hickox of Malheur county.

Sheep and wool reared by club boys and girls valued at \$1,457.21, cost them \$766.98 making a profit of \$700.25. Calf club members, who cleared \$1,427.50, own calves worth \$4,477.50, although this is the first year for that work in this state. Girls in the sewing clubs made 4344 different articles at a profit of \$1158.19. Canning club members, boy as well as girl, learned to prepare and serve meals and bake bread as good as mother makes. Their profit was \$1269.67.

A Triumph In Records

Again the House of Brunswick has scored a distinct hit.

After months of preparation the long expected expected Brunswick Records are now ready.

Thus, one of the foremost phonograph makers brings into the field a new line of records which is bound to win great popularity.

Brunswick policies have always been aggressive and it is natural that the trade has been expecting new developments when Brunswick went into record-making.

The House of Brunswick has forged ahead in the phonograph world at a very rapid pace. When The Brunswick was announced, it was heralded as "All Phonographs in One," for it was the first largely advertised phonograph to play all records.

Its multi-record reproducer, the Ultona, won friends everywhere because it plays each make of record according to its exact requirements.

Brunswick Records are different. They bring a new element into record-making. They not only bring fine artists and favorite selections but they introduce interpretations by noted directors. Thus, Brunswick unites the talents of the artist with the genius of the composer.

The House of Brunswick is noted for doing new and unusual things. Although 74 years old it has kept up to date generation by generation. And today in the phonograph field there is no success more phenomenal.

All who have heard Brunswick Records predict another Brunswick triumph. Their popularity is bound to be nationwide, and music lovers everywhere will find in Brunswick interpretations new tonal values, new qualities of execution.
