## PRESIDENT URGES AID FOR STARVING

Asks Glass to Appeal to Congress For Order to Loan Money

PRESIDENT URGES 2L 30  
WASHINGTON, Jan. 28.—By A. P.—President Wilson asked Secretary of the Treasury Glass to make another appeal to congress for authority to loan \$150,000,000 to Poland, Austria, and Armenia to relieve the desperate food situation.

The President said that it was "unthinkable" to him that the United States should withhold from the stricken people of those countries the assistance that could be rendered by making available on credit a small portion of our exportable surplus food.

## No Convicts in Prison Camp in Pinellas County

ST. PETERSBURG, Fla., Jan. 28.—At the suggestion of County Judge Leroy Brandon, who declared "booze has gone and there will probably be no more convicts," the Board of Commissioners of Pinellas county, one of the most populous counties in Flor-

ida, has closed the county convict camp and has under consideration a proposal to lease it for farming purposes. This action was prompted when it was discovered not a convict was in the camp January 1. The prisoners in the past have been employed in repairing county highways.

## EX-SERVICE MEN TO RECEIVE AID

Linn County Soldiers to Get Benefit of War Work Fund on Hand

The National War Work Council of the Y. M. C. A. had left over considerable of a fund from their War Work in this country and in Europe. At the direction of the War Department, this money is to be apportioned among the different states in the Union, and is to be used in assisting ex-service men in obtaining an education. \$15,000.00 of this amount has been apportioned to Oregon as its share for the balance of this school year. There will be an additional apportionment next year. Linn County's Share of this has been appointed to award this money to worthy ex-service men from Linn County who may make application for assistance. The money so obtained may be used in attending any school the applicant may wish to attend, including automobile and engineering schools, provided it is evident that the money is being used in good faith, and in a way that will bring results. The money will be those who receive assistance in monthly payments for the balance of the school year.

It is the intention not to award this money in large scholarships, but rather to assist a number of men in amounts from \$50.00 to \$75.00. In making these awards the committee will take into consideration the applicant's service record, moral character and general ability to make good. All ex-service men who are interested will be furnished an application blank by writing to or calling on the Secretary of the Linn County Committee, H. W. Torbet, First Savings Bank, Albany, Oregon. All applications must be received by the Committee on or before Feb. 15 1920.

## CLOSING EXERCISES

(Continued from Page 1)

university was dependent on the smaller colleges and out of such institutions have come a large percent of the world's leadership.

He presented an optimistic view of the future and emphasized the importance of a highly intelligent and moral class to cope with present problems. He concluded by saying, "We are going forward, one of the strongholds of selfishness in the world has been won by the recent war."

On behalf of the Oregon Agricultural College Dean Buxell represented the president and expressed a most friendly greeting on behalf of his institution. He stated that "an institution should not be judged by its size but by its influence for good," and that the individual in the activities of life must answer three questions to succeed: What do you know? What can you do? and Who are you? Dr. Clark, president of Pacific College spoke in the usual friendly trend of those who preceded him and said that "Now is the time when the Christian College has come into its own" and made a special plea that the Alumni members become a stronger factor in the support of their respective colleges.

Dr. Frank Lock Griffin, of Reed College, Portland, expressed the felicitations of his institution in a truly fraternal spirit and stated that "our interests are identical in many ways." He emphasized the fact that the size of the school is no factor and used the illustration that in large schools the "students go through the school and in small schools the school goes through the student."

City Superintendent C. W. Boettcher, of Albany spoke in the interest and importance of the Christian College and recommended the home high school students to attend the home college.

Prof. Chas. E. Whittlesey represented Philomath College and spoke in glowing terms of President Williams, for the position to which he had been called. Prof. F. G. Franklin, of Willamette University, and a former instructor in Albany College, represented the good will of his institution and reached a climax by comparing the college to a flying machine that had reached the milky way and had her propeller clogged with butter.

Percy Young, an Alumnus member and one of the firm supporters of the college, reported the many letters and dispatches from various friends and organizations in the United States, including a dispatch from former president H. M. Crooks, of Alma, Michigan.

Dr. Wallace Howe Lee was a live wire on several occasions during the evening and took a list of colleges represented in the United States which were numerous.

President Williams was the 1st speaker of the lengthy program and

expressed in few words his profound appreciation of the personal regards extended to him and concluded by giving a brief outline of some of the work that is to be taken up at once.

Some of the leading ladies of Albany served the banquet which was of high grade in every respect and was participated in by about two hundred and fifty guests.

## Ban On Slacker Cows

That all slacker animals belonging to Coos county dairymen are to be either sent to the butcher or disposed was determined when the progressive dairymen of that section met at Norway, according to E. L. Westover, field dairyman of the extension service of the college who has returned from the meeting.

In less than an hour more than 1000 cows were signed up for the Coquille Myrtle Point Cow Testing association. It is estimated that more than 1500 cows will be listed in that one association soon. W. C. Cutler of Myrtle Point was elected president of the association. Dairymen on the lower Coquille river and Bandon section also take the same stand as to slacker cows. They organized their cow testing association at a meeting in Bandon, January 12, electing J. A. Jarman of Bandon president.

It is expected that more than 700 cows will be listed in that association this year. Eighty-six slacker cows were discovered by the testing associations in the state, last year, and sent to the slaughter house

It is considered a sacrilegious act to tread on a piece of printed paper in China. Receptacles for waste paper are placed at every street corner. It is a meritorious act to gather the sacred characters and save

## Voiles, Marquissettes, Challies, Crepes
