Hair Grown on Bald Head
After going about ten years, a New Yorker recently found something which grew his hair again. He writes: "I had a bald spot on my head which was so bad that I had to wear a wig. I saw an advertisement for 'Woolly Hair' and bought it. I used it for a few days and my hair began to grow again. I am now bald again, but I will use 'Woolly Hair' again. I will send you a testimonial if you will send me a few more bottles. My name and address are: John H. Britton, Station F, New York, N. Y. My wife and one have grown hair after it had fallen. Get this out, show others; this is genuine."
