

Brownsville Men Organize Chamber of Commerce

The Brownsville Chamber of Commerce held an enthusiastic meeting last week and elected officers for the ensuing year voted to join the state Chamber of Commerce and to solicit membership from the town and entire country in the Brownsville section. The annual fee was placed at one dollar. Good roads and a pay roll for Brownsville were the two main issues discussed.

Following a fine chicken dinner, officers were elected for the coming year: President H. C. Thompson, vice president Charles Sterling, secretary, A. B. Miller, treasurer, Dr. Shelton. The Chamber of Commerce plan is being revised in most every progressive town of the state according to the report of the press and Brownsville is no doubt in the position that leads to victory. Albany will be heard from Friday night of this week on the same question.

North Albany Items

Lester Mines Near Gates Sold to Eastern Men

Milo Shier of the Lester Mines near Gates, passed thru Albany yesterday on his return for Seattle where he had been to complete the sale of the Lester Mines to eastern capitalists. Mr. Shier states that the deal was completed where by eastern men and capital will take hold of the mines with renewed effort and that a big amount of development work is to be done this summer. From 75 to 100 men will be employed and a new supply of modern machinery added to present supply. The Lester mines have been worked for many years with the prospects growing better as the development work is carried out.

Lacomb Citizen Suggests Plan for Kaiser Wilhelm

A citizen of Lacomb would have the Kaiser put in a cage and exhibited in every city village and hamlet of civilization and charge a fee of admittance to those who wish to view the man who has been the menace to all civilization. The gate receipts collected from the show to be used in helping the needy in the lands devastated by the Kaiser's influence.

Tangent Farmer Favors Oregon After Trip East

Sibbell Young, son of Mr. and Mrs. E. A. Young of near Tangent has recently returned from an extended trip in the states of Dakota, Iowa and Nebraska and expresses his opinion that the Willamette valley has great possibilities. Mr. Young had opportunities to meet with the county agents of various sections and found

that they are doing a great work, and in many sections of Iowa is rated at about \$300 per acre and still at this price the farmer is organized in Farm Bureaus and other organized activities and does a prosperous business. The price of land said in the east is bound to bring up the price of land in the West. Mr. Young has been in the service and will next settle on a farm in this county is the expectation of his friends.

William Huddleson Estate at Mill City Causes Trouble

The estate of the late William Huddleson, of Mill City, who appears to be a single man, is causing more or less trouble among his relatives who have practically taken the law in their own hands and proceeded to make a distribution of the property, which consisted of a few chickens and some household effects, reports a citizen from Mill City. It appears that two brothers and a brother-in-law who attended the funeral were not satisfied with the action of a lady relative who owned the house in which Huddleson lived and died. On the day following the funeral the brothers took a truck to the house on the Marion county side of the river and hauled the household effects and chickens to the Linn county side and placed them in a garage over Saturday night. On Sunday morning they shipped the goods to a point in the State of Washington. The arrived parties in the transaction are now reported as taking legal action to have the alleged offenders arrested and the goods returned.

America's oldest bell hangs in a rectory at East Hadden, Conn. It bears the date: "A. D. 803," and is believed to have been brought to America from a Spanish monastery.

Daily Fashion Hints

By Mabel Whitney

Costume for a Young Person

Of course she wears furs, for is it not the mode of all the feminine world and so why not for Mistress Seven? The material of the coat and hat is a lovely velours of a pale green shade. Little tucks grouped in threes make the trimming and on the wee hat a long velvet streamer makes a charmingly coquettish finishing. The four-holed pearl buttons have decided to be original and so have taken to having black worsted to fasten them in the four corners. The fur is dyed lynx.

In recent Rome the perfumers lived in a special quarter set apart for their use, and whole streets were filled with their shops, which were the lounging places for wealthy young nobles.

Maxwell Motor Car

A Maxwell car weighs 2130 pounds. It is made of the finest materials that may be obtained.

You cannot find in any car a better crankshaft, better bearings, better axles or better gears.

Neither science nor money can produce them better.

Do you know why such fine materials are used in a car like Maxwell?

We had to.

Keeping its weight down and yet maintaining strength mean the use of only those extra fine steels and metals.

For a metal that is light in weight and yet strong, as any user of metals knows, is a high priced metal.

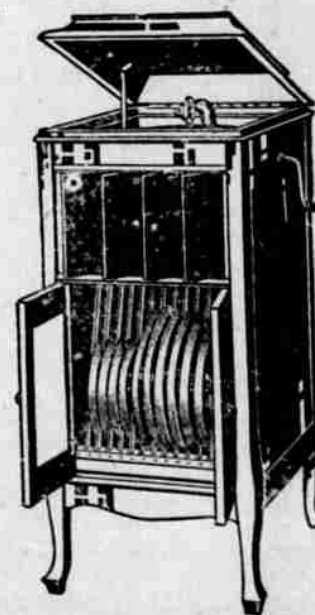

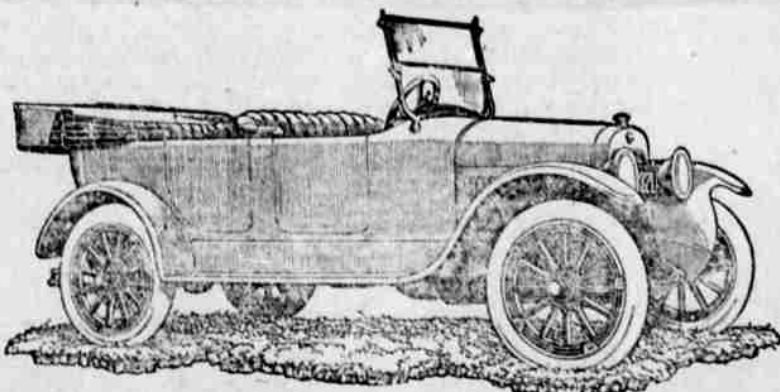

The use of these fine grades of steel has been the foundation of the business. Maxwell has grown in numbers and friends. The latter countless; the former well on the road to 400,000.

Grafonola

This is the Columbia Grafonola most musical people find most satisfactory for the home. There are more expensive Grafonolas. There are lower-priced Grafonolas. But this is the Grafonola which most people think gives you the biggest musical value for the money.

In quality and volume of tone it is far superior to many phonographs that cost a great deal more. Its design and finish are tasteful, without extravagance. Perhaps this is the Grafonola you ought to buy.
