# What H. C. L. Really Means!

Town folks think it's High Cost of Living. Farmers know it's High Cost of Loading—not on the farm, where the day is sixteen hours long, but in factories and shops, where the workers want to quit after six or seven hours. This H. C. #### Just a Bit About Lincoln

LINCOLN was a many sided man, acquainted with smiles and tears, complex in brain, single in heart, direct as light; and his words, candid as mirrors, gave the perfect image of his thought. He was never afraid to ask—never too dignified to admit that he did not know. No man had keener wit or kinder humor. Lincoln was an immense personality—firm, but not obstinate. Obstinacy is egotism—firmness, heroism. He influenced others without effort, unconsciously; and they submitted to him as men submit to nature—unconsciously. He was severe with himself, and for that reason lenient with others. He appeared to apologize for being kinder than his fellows. He did merciful things as stealthily as others committed crimes. Almost ashamed of tenderness, he said and did the noblest words and deeds with that grace of modesty. Lincoln was the grandest figure of the fiercest Civil war.—R. G. I.
