DRINK A GLASS OF REAL HOT WATER BEFORE BREAKFAST.

Says we will both look and feel clean, sweet and fresh and avoid illness.

Sanitary science has of late made rapid strides with results that are of untold blessing to humanity. The latest application of its untiring research is the recommendation that it is as necessary to attend to internal sanitation of the drainage system of the human body as it is to the drains of the house.

Those of us who are accustomed to feel dull and heavy when we arise, splitting headache, stuffy from a cold, foul tongue, nasty breath, acid stomach, can, instead, feel as fresh as a daisy by opening the sluices of the system each morning and flushing out the whole of the internal poisonous stagnant matter.

Everyone, whether ailing, sick or well, should, each morning before breakfast, drink a glass of real hot water with a teaspoonful of limestone phosphate in it to wash from the stomach, liver and bowels the previous day's indigestible waste, sour bile and poisonous toxins; thus cleansing, sweetening and purifying the entire alimentary canal before putting more food into the stomach. The action of hot water and limestone phosphate on an empty stomach is wonderfully invigorating. It cleans out all the sour fermentations, gases, waste and acidity and gives one a splendid appetite for breakfast. While you are enjoying your breakfast the phosphated hot water is quietly extracting a large volume of water from the blood and getting ready for a thorough flushing of all the inside organs.

The millions of people who are bothered with constipation, bilious spells, stomach trouble, rheumatic stiffness; others who have sallow skins, blood disorders and sickly complexions are urged to get a quarter pound of limestone phosphate from the drug store. This will cost very little, but is sufficient to make anyone a pronounced crank on the subject of internal sanitation.

New Hatchery To Open At Mehama

Ground for a large trout and salmon hatchery has been purchased by the state on Stout creek at Mehama.

Work improving the grounds at that place has already begun under the supervision of Leroy Ledgewood, superintendent.

Eggs and "eyes" will be shipped to the new hatchery from Bonneville on the Columbia river. It is expected that operations will commence about April 1. Eggs and "eyes" will be hatched and the minnows distributed in the mountain streams of the valley.

BLACKSTONE PLEASURES AUDIENCES OF SALEM

The Great Blackstone master magician who is coming to the Globe Theatre February 17, is being enthusiastically received by other audiences in the state according to the report received from Salem, where he recently gave an exhibition of his baffling magic.

The Capitol Journal says of the performance:

All the magic of India, China and Egypt were like playthings in the hand of the great magician, Blackstone, at the Opera House last night. For two hours the audience thoroughly enjoyed the wonderful illusion and trickery of this master, each one more baffling than the one before.

There were a great many things that made the evening one of genuine pleasure, first of which was the personality of Mr. Blackstone himself. One usually pictures a magician as a sort of weird and uncanny person, but such was not the case last night. Mr. Blackstone is quite human and very witty. He keeps the audience in a roar of laughter the greater part of the evening. Circulating among the audience a considerable part of the time, he performs various tricks in such a refined and entertaining manner that no one could take offense.

WOOD IN FAVOR OF LEAGUE OF NATIONS

CHICAGO, Feb. 11—General Leonard Wood, replying today to the request of Senator William E. Borah for views of republican party candidates on the league of nations and the peace treaty, said he believed "that we should accept the league of nations as modified and safeguarded by existing Lodge reservations."
General Wood declared that in his opinion the people at large had indicated they favored the treaty, provided America's rights were fully safeguarded, and that he did not believe it necessary to delay consideration for a general election.

STRADIVARA for Dancing

For the impromptu dance—or for an entire evening's dance for that matter—you will find the Stradivara will supply you with ideal music.

The beautiful gliding waltz of a famous symphony orchestra—the one-step or fox trot of your favorite military band or the blatant blare of the Jazz band—can be yours by merely placing the proper record on your Stradivara. And you can have encore after encore because the Stradivara is tireless.

Select any record made by any company. You can play it better on your Stradivara.

We're ready to show you.

The Stradivara has a sound-board like a piano—a radical departure from the old-style phonograph. There are no metallic, piercing or megaphonic tones.
