Do You Spend More For Clothes Than Your Wife?

They say that a man pays more for clothes in the course of a year than a woman.

This may be so but we're not sure about it. At any rate when a fellow starts buying Clothcraft Clothes he has a better chance to make a real saving. Because they are scientifically made in large quantities, they offer greater value and the price is less.

Error in Ad Delays Cure

The Democrat takes this opportunity to correct a misprint in the advertising of the Bellingham Chemical Company in their ad for Joto, a cure for indigestion. The ad, as it appeared for several issues read that indigestion could be cured in "two months", whereas it should have read that relief would be given in "two minutes". This is a product made on the Pacific coast and is said to be equal to any proprietary remedy and is deserving of the patronage of Oregon people afflicted with stomach trouble.
