

Great Magician Is Attraction At Globe Tonight

The attraction at the Globe Theatre tonight will be the first appearance of Blackstone, the master magician, whose work has been compared with that of Herrman and Kellar. Blackstone is the man who is said to have the cleverest hands in the world and his performance is expected to be one of the most entertaining as well as mystifying ever given on a stage. He has a varied program of small magic and one trick follows the other so quickly that an hour passes in laughter and amazement.

Between the first and second parts of the entertainment there is introduced a musical act that in itself is a big feature of any performance, and prepares the way for the master magician to offer his illusion, spirit manifestations and levitation demonstration. This latter is said to be a wonderful achievement and is performed under the close scrutiny of a committee from the audience. Its completion leaves them completely mystified.

Blackstone has not forgotten the children. At every performance he presents a number of features that will appeal to them, for he knows that every child likes a magic performance.

It is a common belief in Switzerland that mistletoe, suspended from the rafters, will protect the house from fire.

ROOMS ARE NEEDED DURING CONVENTION

Additional housing and entertainment facilities for the outside delegates to the State convention of the Christian Endeavor Society, which opens in Albany Friday are asked today in an appeal sent out by H. L. Sternberg of this city.

Over 500 visitors are expected here during the three days of the convention and more homes are necessary in which to take care of them. Bed and breakfast is sought for Friday and Saturday. Those desiring to help call 134 R.

Roseburg Paper Has Fine Edition

Yesterday's issue of the Roseburg Review was a fine edition of 24 pages devoted to boosting Roseburg and Douglas County and their resources. Among the progressive firms of that city is mentioned the Globe Theatre Co., of which Loren Davis, an Albany boy, is manager. The edition is full of interesting matter and is a credit to the publishers.

The Chinese are said to be the oldest bread-makers in the world; they have made bread so long that their historians do not mention a time when their industry was not ancient, and the Chinese today do the work just as their forefathers did, and the styles are the same.

EVANGELIST CLOSES IN ALBANY SUNDAY

Bruce Evans started his sermon last night by saying there were some folks so narrow if they cried, tears would run down their backs. He said the doctors would say they were suffering from Bacteria. According to Evans the only tears we could shed without losing anything would be the profiteers. In speaking of being narrow he reminded his audience that the stream that is narrow is usually the one that has depth to it. A swamp is a broad proposition. So reasoned the speaker, it might be better at times to be a little narrow and have some depth than to be a mere swamp.

Never in the history of the city have such crowds gathered together night after night to hear any man speak as are hearing Bruce Evans. Night after night many have been turned away. Nearly a hundred have gone forward in the services. Over a dozen went down the aisle last night.

The meetings close Sunday night. The evangelist will go to Bellingham Washington to conduct a similar service. Bruce speaks tonight.

Eyesight Specialist Coming To Albany on Saturday

Dr. Will J. Thompson, Portland eyesight specialist, will extend his Optical service to Albany, and will make his first visit here next Saturday. Dr. Thompson has had many years practical experience and uses the latest and most scientific methods of Eye examination known to the science of optics, which assures his patrons of absolutely correct glasses. He may be consulted here Saturday, February 21. St. Francis Hotel all day. f17

A Russian baptism under the ritual of the Greek Church is a curious ceremony. A large wooden bowl is filled with water, and the priest takes the child in his arms, stuffs wadding into its ears and nostrils, and then ages the little head under the water three times, during which period he repeats special prayers.
