KOREANS FIGHT JAPANESE RULE

Will Suffer Extermination Before Giving in, Says Statesman

SHANGHAI—By A. P.—The Koreans will suffer extermination before they will acquiesce in the rule of Japan declares Baron Kim Kachin, formerly one of Korea's elder statesmen and officials who has penetrated the Japanese cordon around Korea. He is now one of the members of the little community of Korean refugees who have found haven here in China.
 "There can be no peace," he said. "The Koreans will never waver. They may not win for many years, but they will never yield."
 He declared that the people are entirely without rights and without political representation. All special privileges are in the hands of the Japanese, he added, and they control all the sources of wealth and rapidly are acquiring actual ownership of the land. The Korean nation, he said is without a mouthpiece, for he asserted not one Korean newspaper edited by Koreans is permitted to exist and public meetings are wholly forbidden.
 "No more than three people, even for social purposes, may gather and talk together," he said. "All of the schools of the country are under the direction of Japanese teachers and the instruction is given in the Japanese language from Japanese text books."
 He said that the history that is taught to children is garbled in such a way as to glorify Japan and discredit Korea.

HAMILTON'S

"Japan's course," he declared, "has been driving the people out of Korea into Manchuria at the rate of 100,000 a year. This is because the Japanese have taken control of everything. They operate the railways, the banks transportation lines, and customs offices and in those few places where there are Korean officials the Japanese adviser is never far distant.
 "Even the Japanese ricksha coolies are favored for they are permitted to solicit fares at exits of railway stations and other places from which the Korean ricksha men are barred.
 "Japanese servants in private homes are employed to check expenditures in these homes and to forbid any of which they do not approve and the Korean who desires to withdraw money he has deposited in a bank first obtain permission from the police to do so.
