"OVERTHROW WORLD ORDER!" BY COMMUNISTS

Manifesto of Communist International, Seized in U. S. Department of Justice Raids, Tells "Reds" Own Story of Their Plans for World Wide Plunder.

Extracts from "Manifesto of the Communist International—Adopted by the Congress of the Communist International at Moscow, March 2-6, 1919, and signed by Comrades C. Rakovsky, N. Lenin, M. Zinoviev, L. Trotsky and Fritz Platten."

Alongside the dethroned dynasties of the Romanoffs, Hohenzollerns and Hapsburgs, and the capitalist cliques of these lands, the rulers of France, England, Italy and the United States stand revealed in the light of unfolding events and diplomatic disclosures in their immeasurable villainy.

Spurning the half-heartedness, hypocrisy and corruption of the decadent official socialist parties we, the Communists assembled in the Third International, feel ourselves to be the direct successors of the heroic efforts and martyrdom of a long series of revolutionary generations from Babeuf to Karl Liebknecht and Rosa Luxemburg. As the First International foresaw the future development and pointed the way; as the Second International gathered together and organized millions of the proletariat, so the Third International is the international of open mass-action of the revolutionary realization, the international of deeds. Socialist criticism has sufficiently stigmatized the bourgeois world order. The task of the International Communist Party is now to overthrow this order and to erect in its place the structure of the socialist world order. We urge the working men and women of all countries to unite under the Communist banner, the emblem under which the first great victories have already been won.

Proletarians of all lands! In the war against imperialist barbarity, against monarchy, against the privileged classes, against the bourgeois state and bourgeois property, against all forms and varieties of social and national oppression—UNITE!

Under the standard of the Workingmen's Councils, under the banner of the Third International, in the revolutionary struggle for power and the Dictatorship of the Proletariat, proletarians of all countries UNITE!

The revolutionary era compels the proletariat to make use of the means of battle which will concentrate its entire energies, namely, mass action, with its logical resultant, direct conflict with the governmental machinery in open combat. All other methods, such as revolutionary use of bourgeois parliamentarism, will be of only secondary significance.

The indispensable condition for successful struggle is separation not only from the direct servitors of Capitalism and enemies of the communist revolution, in which role the Social Democrats of the Right appear, but also from the Party of the Center (Kautskians), who desert the proletariat at the critical moment in order to come to terms with its open antagonists.

The growth of the revolutionary movement in all lands, the dangers of suppression of this revolution through the coalition of capitalist States, the attempts of the Socialist betrayers to unite with one another (the formation of the Yellow "International" at Berne), and to give their services to the Wilsonian League; finally, the absolute necessity for co-ordination of proletarian actions—all these demand the formation of a real revolutionary and real proletarian Communist International. This International, which subordinates the so-called national interests to the interests of the international revolution, will personify the mutual help of the proletariat of the different countries, for without economic and other mutual helpfulness the proletariat will not be able to organize the new society.

Inc calculable are the sacrifices of the working class. Their best—Liebknecht, Rosa Luxemburg—they have lost. Against this the proletariat must defend itself, defend at any price. The Communist International calls the entire world proletariat to this final struggle.

DOWN WITH THE IMPERIAL CONSPIRACY OF CAPITAL!
LONG LIVE THE INTERNATIONAL REPUBLIC OF THE PROLETARIAN COUNCILS!

FARM WAGES FOR LAST YEAR WERE HIGHEST KNOWN

WASHINGTON, — Farm wages were the highest in the history of the United States last year, the Department of Agriculture announces. For labor hired, by the month with board, the average for the country as a whole was \$39.82, without board it was \$56.29. Harvest wages per day with board reached the top figure of \$4.48 in the North Central States west of the Mississippi River. The lowest farm wages are in the South Atlantic States, with the South Central States next lowest. Monthly wages with board were highest in the Western States, including the Mountain and Pacific States where the average was .62.96 while without board it was \$87.12.

Farming operations of 1919 produced crops that had a value at the farm that was 11.8 percent above 1918 and animal products 9.9 percent above, but the gain in wages of farm labor was relatively greater. Wages by the month with board increased 14 percent, without board 15.3 percent and day wages in harvest, 18.9 percent.

"These figures indicate", says the Department of Agriculture, "that the farm labor is still regaining the ground he lost, relatively, early in the rapid upward movement of prices of farm products after 1915. This wage recovery was evident in 1918 as well as in 1919, but full recovery has not yet been accomplished".

standing in the United States Navy and in scientific circles, easily held the commanding position in the controversy. But it was after the scientific bodies one by one had sifted the evidence and pronounced Cook's claims unfounded that Peary's title as discoverer of the Pole was really won.

Born in 1858

Peary was born in Cresson, Pa., in 1858. His father died when he was three years old, and his mother took him to Portland, Me., where he spent his boyhood, roaming about Casco Bay. He went to Bowdin College, won fame there as a runner and jumper, and stood in the honor column of scholarship. He spent his spare time studying civil engineering and passed in that branch into the naval ser-

vice. He became Lieutenant Perry, U. S. N.

His first assignment was to the tropics. It was when he returned to Washington that he fell upon the book about Greenland, and thereafter virtually consecrated himself to polar exploration.

Between voyages Peary resorted to the lecture platform to raise funds for further exploration. In one instance he delivered 168 lectures in 96 days raising \$13,000.

On his sixth voyage, with the Pole in view, he had to give up because both of his feet became frozen. Although he had reached the most northerly land in the world, naming it Cape Morris K. Jessup at the tip of Greenland and had also attained lat. 84.17, the northmost record in the Western World, he was still in great despair. He wrote in his diary: "The game is off. My dream of sixteen years is ended. I have made the best fight I knew. I believe it was a good one. But I cannot accomplish the impossible."

Seventh Trip Made

By the time Peary reached civilization, however, he had decided upon still another trip. With the specially designed ship Roosevelt, Peary drove further into the frozen ocean than navigator had ever been before.

The explorer was 52 years old when in July 1908 he set out on his eighth and successful invasion of the Polar region.

Peary's closing years were spent in well-earned rest, living for a large part of the time with his family of three—wife, daughter and son—on

Eagle Island, off the coast from Portland, Me. Mrs. Peary was formerly Josephine Diebitsch, of Washington, D. C., marrying the explorer in 1888.
