What a Heap of Happiness It Would Bring to Albany Homes

Hard to do housework with an aching back.

Brings you hours of misery at leisure or at work.

If women only knew the cause—that

Backache pains often come from weak kidneys.

Would save much needless woe.

Doan's Kidney Pills are for weak kidneys. Ask your neighbor.

Read what an Albany citizen says:

Mrs. Sarah S. Ross, 6th and Chicago Sts., Albany, Ore., says: "Several years ago I suffered from inflammation of the bladder. My kidneys didn't act as they should and my back ached so, I couldn't stand on my feet very long at a time. I never had anything cause me so much pain and misery. I finally started taking Doan's Kidney Pills through the advice of a friend. I was relieved of that awful misery almost from the start. Two

boxes of Doan's practically cured me of inflammation of the bladder strengthened my back and restored me to good health. I know Doan's are reliable."

OIL FOUND AT LACOMB REPORT

Well Produces Oil When Only 400 Feet Below the Surface

LEBANON, Feb. 21—There are strong indications that oil has been struck at Lacombe, nine miles from Lebanon, in a well sunk to a depth of 400 feet. All operations at the well have been suspended while J. C. Pyle, manager and president of the concern, secures machinery in Bakersfield to prevent water mixing with the oil.

Stock in the company owning this is all owned by Lebanon people and has been withdrawn from sale. J. C. Mayer, cashier of the First National bank, is the largest stockholder.

Oil prospectors have been covering the Willamette valley in the hope of finding promising oil indications for more than a year. A short time ago a Lebanon report said sand strata bearing traces of oil had been reached at an encouraging short distance from the surface.

Henry M. Parks, director the Oregon bureau of mines and geology, scouts the idea of oil being found in commercial quantities in the vicinity of Lacombe. A survey of the state west of the Cascades was made by agents of the bureau last summer and the report of their findings does not lend encouragement to prospectors for gas or oil in central or eastern Linn county, he says.

MRS. IDA ARCHIBALD DIES OF INFLUENZA

Mrs. Ida Archibald, wife of Frank Archibald, died at her home in Vancouver Washington, Tuesday Feb. 17 from an attack of the influenza. She was ill but one day. She was formerly known in Albany as Miss Ida Schiller. Mr. Archibald and two small children are reported very low with the disease.

Mr. Archibald is a brother of O. A. Archibald of this city who is now in Vancouver assisting the afflicted family. Mrs. Archibald is survived by her husband, two small children, her parents, Mr. and Mrs. Schiller, formerly of Albany, two brothers, William and Edward Schiller, and one sister Mrs. James Archibald.

Funeral services have not been arranged as yet.

CLAUDE THEISSEN OF NEAR JEFFERSON HAS MADE SUCCESS

Claude Theissen one of Linn county's most successful farmers residing on a farm near Jefferson is an example of what honest toil combined with good judgement can produce. In a recent issue of the Oregon Statesman in which the resources of the Salem section was being boosted the following comment is paid Mr. Theissen of Linn.

No doubt most readers of The Statesman noticed the communication in yesterday's Salem Slogan pages from C. Theissen of Jefferson. A friend tells the writer that Mr. Theissen is a man who is now very well to do; with a fine farm; and that he paid for the farm with money realized from the potatoes he raised and sold; and then some. And Mr. Theissen is not the only man in the Jefferson neighborhood who has paid for his land from the sales of his potatoes grown on the land. It takes work and patience and intelligence, but there is money in potatoes in this district; and, some years, big money.

Record
unparalleled
in tire history
Proves Dayton
Airless 99%
Perfect

Dayton Airless Tires for Fords, Maxwells and Chevrolets have demonstrated wonderful easy riding qualities and long mileage.

An amazing record of uninterrupted, air-free, care-free trouble proof, delay proof mileage has been made that revolutionizes all standards of tire service.

Dayton Airless has seen service that would wreck ordinary tires

—on passenger cars and trucks,

—through the muddy roads of the middle west,

—over the rocky trails of the mountains,

—through the alleys of cities,

—over icy streets and frozen roads,

—across burning desert sands,

Ruts and stones could not break them.

Tacks, nails and broken glass could not stop them.

They have made surpassing scores on Fords, overloaded

with passengers; they have carried oil in Oklahoma, groceries in Chicago, dry goods in New York, paint in Baltimore, lumber in Michigan; they have faithfully served stores, families, farms and factories

—without one minute's delay for repairs,

—without back-breaking pumping,

—without tedious patching,

—without vexing changes of tires.

And with all this wearing, tearing service only 4/10 of one per cent of thousands and thousands bought by owners of Fords, Maxwells and Chevrolets have come back for adjustment.

Now, Dayton Airless Is Guaranteed 8,000 Miles.

Records have shown 2, 3 and 4 times that mileage.

If you would spend your money wisely, buy Dayton Airless.

It's true economy.

You'll save tire repair bills, for there will be no repairs.

You'll save time, for there will be no delays.

You'll save energy, for there will be no tires to change.

Investigate.
