RETURNS MUST BE IN BY MARCH 15 SAYS M. MILLER

Complete returns of individuals, partnerships, fiduciaries, and corporations must be in the hands of Milton A. Miller, Collector of Internal Revenue, Portland, Oregon, on or before March 15th 1920.

This also applies to the information returns. In addition to the income tax statements required by law all individuals, partnerships, fiduciaries and corporations having made payments during the year of \$1,000 or over to any one person (which includes salaries, wages, fees, commissions, rent, interest, premiums and annuities) must file information returns on Form 1099, accompanying said Form with letter of transmission on Form 1096. These information returns must be forwarded directly to Commissioner of Internal Revenue, Sorting Division, Washington, D. C.

Last year if having good and sufficient reason it was found impossible to complete a return by March 15th, corporations, individuals and partnerships were permitted to file on or before March 15th, a tentative return and were given an extension of 45 days in which to file a complete return. Conditions which justified such extensions do not exist this year.

Where additional time is actually required because of illness or absence, an extension of time not to exceed 30 days may be granted upon written application therefore made before the return is due. This, however, only applies to specific cases of illness or absence.

Where a fiscal year has been established in the Collector's office the due date of filing Income tax Returns is the fifteenth day of the third month from the close of the accounting period, but this does not apply to the information returns referred to which must be filed as above.

BEAR OIL for HAIR

AN INDIAN'S SECRET

One of the potent ingredients of Ketchikan for the hair is genuine bear oil. There are other oils but none so good. Bear oil has been used for many years by the Indians of the Northwest. It is the best for the hair and scalp. It keeps the hair from falling out and makes it grow again. It is the best for the hair and scalp. It keeps the hair from falling out and makes it grow again. A Model Bathroom Floor

Next to the kitchen, the bathroom is the room you naturally first think of to place a linoleum floor. Because a bathroom floor must be sanitary. It must clean easily, it must dry easily. It must be durable, it must be comfortable underfoot. It must be inviting, it must be economical.

And if you have the proper sense of harmony, you will not rest easy in your mind, unless the bathroom floor harmonizes perfectly with the bathroom ceiling, walls and fittings, and with the floor and general spirit of the hall or bedroom from which the bathroom opens.

Armstrong's Linoleum

fulfills all these requirements exceptionally well.

We have a wide range of colors and patterns to select from. Call and ask us to show you our special bathroom designs.
