

Petticoats

EVERY woman will be particularly interested in the special petticoat values we are offering. In most cases they are Drummers samples which accounts for their being only one of a style.

There is a good range of materials and colors so you will have no difficulty in finding a color that will harmonize with your other wearables.

There are cotton petticoats as low in price as 75c and silk ones ranging in price up to \$8.50.

It would be wise foresight to purchase these garments now as we will be unable to buy more to sell at present prices.

The union labor leaders representing all the railroad brotherhoods will meet here today to decide their final attitude toward the railroad reorganization bill. It is rumored that they will take definite action against the measure in the event that the measure is signed by President Wilson.

RED PAMPHLETS YANKS SPURNED

Poison Propaganda to Russian
A. E. F. Revealed by U. S.
Secret Service.

Extracts from pamphlets, published by the English-speaking Communists in Russia, and distributed among the American troops in the North—now in the possession of the U. S. Department of Justice.

"Comrades! Drop this dirty work. Turn your guns on your real enemies, the sweaters and capitalists."

"Come with us in the far nobler struggle to establish the triumph of labor the world over."

(Signed) N. LENIN."

"East and Central Europe is aflame with the revolt. The exploiting class has in some countries fallen, and in others are on the point of falling. The dawn of the day of Labor's emancipation has come!"

"You have arms. You know how to use them. Will you, like slaves, use them in defense of your master, or will you use them to help your class be free? If the former, then you know that you will meet with determined resistance of the united revolutionary people of East and Central Europe, and History will be your judge. If the latter, then here's a hearty welcome into the ranks of international labor."

"We want you to understand that every country in the world—including your own—can become a socialist state, a workmen's country, if only it follows the Russian example. Every nation in the world—including the 'yankee race'—can become a really free nation, if it only does away with the trusts, the money lords and the bloodthirsty exploiters. It is up to you American soldiers to do it! It is up to you to bring the great lesson of the Russian Revolution home to your toiling and suffering brothers. It's up to you to start it there—in your own America, you just start it—and your brothers will follow you! You just dare! You have nothing to lose but your chains. You have a world to gain."

"You just dare to take home with you the Red Banner of the Revolution—and inscribe upon it:
—Down with capitalism!
—Long live Industrial Freedom!
—Long live Socialism!"

"You probably would let us alone and go home, if your officers would let you. But they do not intend to let you do so. You are under their orders, and they are under the orders of 'higher ups,' and those are under the orders of 'still higher ups,' etc. At the top of the whole pile are the wealthy capitalists, who want to get their greedy hands upon the mines and factories, railways, etc., of Russia. That is the reason you are here to rot workingmen and make millions richer."

"We know that you are bound, hand and foot by discipline and have been in blind ignorance of what you were doing here or why you came. The only way that you can do the decent thing is by breaking the discipline that drives you to this crime against your own kind, the working class."
