CONFERENCE ON TREATY WITH WILSON IS THE ONLY HOPE LEFT

White House Officials Discuss Move of Administration Leaders to Arrange a Meeting With President.

BELIEVED IMPOSSIBLE

Wilson Said to Have Indicated that he Will Not Change From his Stand Against Reservations.

WASHINGTON, Mar. 6.—By Associated Press—White House officials today were discussing the move of the administration senators to arrange a conference with President Wilson on the Peace treaty. It is not believed that the president will accede to any request for a conference. It is said that President Wilson told Senator Glass two weeks ago what his attitude was and indicated that he would decline any further discussion of a compromise with the senators on the subject of the peace treaty. Hope of any ratification seems to be greatly diminished and if the president refuses to hold a conference with the republican senators further defections in the administrations rank are predicted. It is declared that a sufficiently large enough break can be caused to secure the acceptance of the republican reservation. All possibility of a ratification of the treaty without the reservations which were adopted by the senate last week has disappeared completely and the best that the administration leaders hope for now is a compromise by the president from his former position which may be acceptable to the majority party. It is not believed that a vote on the treaty will come up before next week after all efforts have been made to secure a conference with President Wilson. This it is believed will occur early in the week if at all.

Daniels said that the world must have the league of nations to help preserve peace without the aid of competitive navies and land forces. He stated that without the league the United States would have to have the biggest navy in the world if she was to maintain her place among the great powers. ALBANY LOSES TO ROSE CITY TEAM

Local Boys Worn Out by Three Contest in Twenty four Hours

After successfully beating the Forest Grove high school in the afternoon by a score of 36 to 25, the Albany Senior high school team met defeat last night at the hands of the Lincoln high school veterans from Portland. The strain of a game played at 11:30 at night on Thursday, the strenuous battle with Forest Grove in the afternoon Friday weakened the strength of the local team for their third battle inside of 24 hours. The final score was 50 to 11. The final game of the tournament will be played tonight between the Salem high school team and Lincoln high. The winner will be entitled to the state championship. In the afternoon game with Forest Grove, Albany showed their gameness when they came from behind the lead that Forest Grove piled up in the early part of the contest and walked away with the match. The Albany boys showed the results of their earlier efforts during the last game when they were beaten by the Portland team. Although they made an excellent fight they could not overcome the rapid teamwork of their opponents. In the afternoon Lincoln high school beat Ashland by a score of 38 to 20. Salem beat La Grande by a similar score and Albany bested Forest Grove 36 to 25. Lincoln high school is conceded will be an easy victor in their match with Salem this evening. Albany beat Salem twice during the season.
