### Visit Increases Popularity

LONDON, (By A. P.)—Since his return from America, the Prince of Wales is playing such an active part in English public life that it is believed his name will soon be officially moved up higher on the list of toasts at state ceremonies and public banquets. Hitherto he has been fourth on the list; the King, the Queen and Queen Alexandra preceding him.

A high official of the royal household stated that the King has given his sanction to a rearrangement whereby the names of the King and Queen are coupled in one toast, and the Prince of Wales will come next.

### Horse Racing on Snow

GSTAAD, Switzerland, By A. P.—For the first time in Switzerland, horse races with sprinting competitions on the snow are being held, at this famous winter resort in the Bernese Oberland. Forty horses have been running and there have been about 4,000 spectators at most of the events. Swiss cavalry officers rode most of the winners.

## "TWIN BEDS" HAS MIRTH RECORD

If laughter be a panacea for all human ill, then those that will see the funniest play ever known to the English speaking stage "Twin Beds" which will be the attraction at the Globe Theatre on Tuesday Mar. 9 will be forever immune from all bodily and mental trouble. It has amusing situations built upon each other thick and fast; it has scintillating lines, new wit and new slang; and it has brilliantly satirical characterization. It is as sweet as a honeysuckle; a tonic for every man, woman or child. It is a babbling spring of humor, and it's refined humor all the time. The company presented here is the one especially engaged to tour the larger cities of the mid west and the Pacific coast embracing well known Metropolitan fun makers.

## Of Interest To Women

In 1892 the University of St. Andrews, the oldest in Scotland, opened its departments of theology, arts and sciences to women.

By enumerating more than 500 people in one day, Mrs. Kate Cherry, of Birmingham, Ala., is believed to have established a high record for women enumerators employed in taking the 1920 Federal census.

The first woman notary public in Iowa, and possibly in the United States, was Miss E. C. Stebbins, of the town of New Hampton, who was commissioned by the Governor of Iowa under date of February 2, 1866.

Mrs. Frank O. Lowden, wife of the Illinois governor, is honorary president of the midwest branch of the Women's National Farm and Garden Association, which is to hold a two day conference in Chicago this month.

The first woman to regularly hold a position as clerk of a United States circuit court, was Miss Adelaide Utter, of Kansas City, who in 1892 was appointed clerk of the Federal circuit court for the western district of Missouri.

The practice of single women in adopting orphans is much more common in England than in America. The spinsters are said to make wonderful foster-mothers. In many cases they have saved a little money, want an interest in life, and go to the foundlings' home for a baby.

Lady Crew, one of England's first women magistrates, is not only a great beauty but intelligent and witty, as befits the daughter of the brilliant Lord Rosebery. She also possesses a fortune of many millions of dollars, bequeathed to her by her mother, who belonged to the immensely wealthy family of Rothschilds.

Among the prominent institutions of leaving in the United States which owe their foundation and present prosperity to women philanthropists are Mount Holyoke College, founded by Mary Lyon; Leland Stanford, Jr. University, founded by Mrs. Leland Stanford, and the Garrett Biblical Institution, which had Mrs. Eliza Garrett as its founder and chief benefactress.

## You'll Be All Eyes

when you nose in among our hat cases this month and see what Stetson has done to beautify the men folks this Spring. For instance; Here's a Green that's going to go big with the young men who buy massages every week—a Bronze for the very busy business man who can hardly spare the time to get shaved—a Tan that looks like \$15, but costs only \$7—an Oxford that looks so imported that you can almost smell the ocean and a Pearl that has just a little more dash and daring than a Pathe serial. They are all here in tune and time for Easter and the treatment you get with every hat is as spotless as our mirrors—

"Value First"

## What Good Is A Dollar?

It's largely up to you. It depends on how you spend it—on the value to you of what you get for it—on your ability to find where that value is to be had.

Of course, it's all right to shop around a bit if you like, but why not let the other fellow make it easier for you by doing a little shopping after your dollar—by showing you what you want and where you can get most of it for your money?

It's a great idea, once you get the hang of it, and here's how!

Right in this paper you'll find dozens of advertisements offering you merchandise. Some things you'll need today; some tomorrow; some next week or next year—but

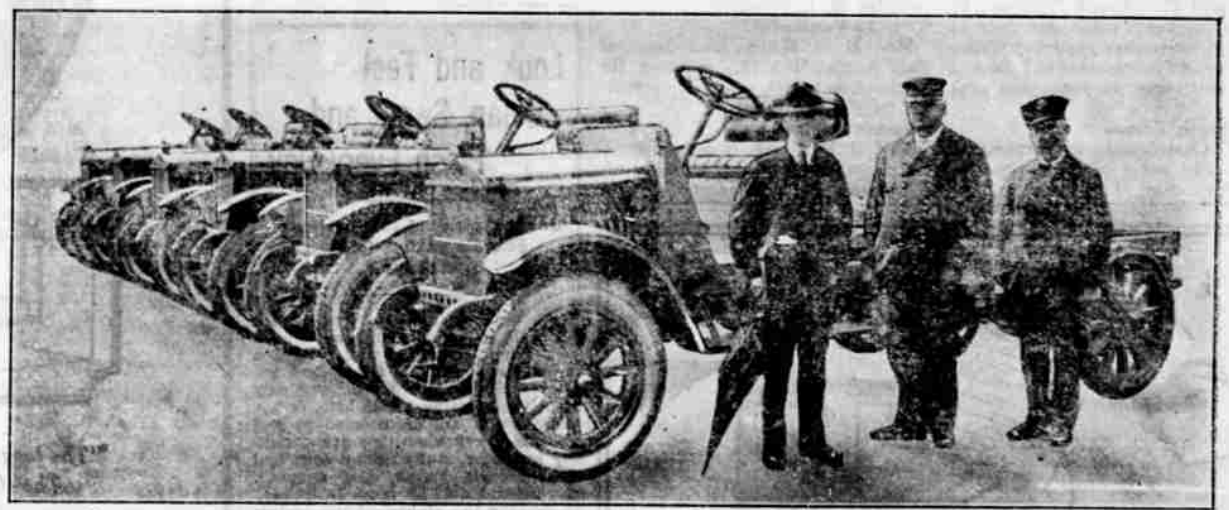

the point is that these merchants are coming to you, looking for your dollar and offering the best they have to get it.

You'll find that by reading the advertisements consistently today and every day, you can increase the value—to yourself—of every dollar you have to spend. The things you see advertised are almost invariably as represented. The advertisers' statements are usually safer to trust than your own judgment. Advertised mis-representation is business suicide.

Read the Advertisements and Increase the value of Your Dollar!
