Stops Medicine--- Health R covered By Internal Baths

Mr. A. Czarnecki, 657 Montgomery St., San Francisco, Cal., writes Tyrrell's Hygienic Institute of New York as follows:

"I must admit that the use of the 'J. B. L. Cascade' has cured chronic constipation from which I suffered. Since May 12, 1913, I have never even tasted any kind of patent medicine or purgative. My health is excellent in every respect."

Over half a million bright, keen, intelligent Americans have found that Internal Bathing is more essential to their health than external baths.

Have found that used occasionally at night they feel like different people the next morning. No more of that bilious, tired, nervous feeling, but having by nature's own cleanser—antiseptic warm water—removed all the poisonous waste from the lower intestine, they awake thoroughly re-

freshed by normal sleep, with all their functions acting properly, clear headed, happy and confident, eager and capable for the duties of the day.

Why not learn more about this rapidly growing and natural practice? The "J. B. L. Cascade" is the invention of Chas. A. Tyrrell, M. D., of New York, a specialist on internal baths for 25 years, and is now being shown and explained by Foshay & Mason in Albany, Oregon, who will give you—on request—an interesting booklet on the subject called "Why Man of To-day is Only 50 per cent Efficient."
