CHALMERS

A car for those who have an eye for beauty and an ear for rhythm

TO stand and look at a new Chalmers is to admire it. For it has a grace of line, an elegance of finish, a care for little details that compel your attention.

The new coach is low in appearance, and therein lies the secret of its beauty.

You can sit in the car and feel yourself at rare ease.

Start the engine, turn loose the power stream, accelerate it, play with it as you will, you cannot help but detect a smoothness, a perfect rhythm

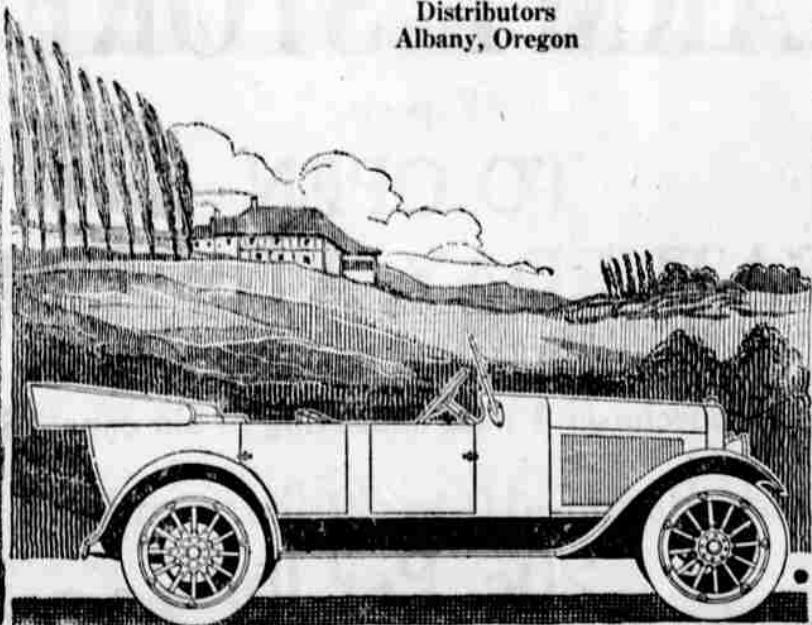

that is pleasing to the ear. There are no engine throbs, no vibration, no apparent effort. Hot Spot and Ram's-horn prevent them. Those two products of master-intellects refine the gasoline, "digest" it, "break up the lumps," and make it easy for that magnificent engine to supply that rhythm of power which so quickly denotes a Chalmers.

Drive this car once, and you, too, will say Chalmers is one of the few great cars of the world.
