MILITARY MEET GREAT SUCCESS

Oregon Agricultural College Corvallis—The biggest military tournament ever held at the college was held Saturday evening in the armory before 2000 spectators.

Governor Olcott was present as guest of honor and President W. J. Kerr of the college presented commissions to the R. O. T. C. cadet officers.

COURT REFUSES TO GRANT DEMURRERS OF ALLEGED PROFITEERS

SPOKANE—Demurrers of three large mercantile houses indicted for profiteering were overruled by federal Judge Rudkin. Court said allegations disclosed extortionate prices and that people were without remedy except thru government action.

The program included an exhibition of driving and of firing the big artillery guns, a squad from each of the three batteries competing. A machine gun firing exhibition, a bayonet exercise and various competition drills by the infantry engineers and motor transport units were also on the list of events. Prizes were given the winning teams.

The co-eds presented a fancy drill as a feature of the evening. The attendance of the Governor is considered as a recognition of the progress of military work at O. A. C. The government has detailed upwards of a half million dollars of equipment for use at the college. This includes the latest Enfield rifles, several large field artillery guns, 190 horses, a number of trucks and other equipment.

PLANTING FLOWER SEEDS INDOORS

Those who wish to have early flowers in their gardens this summer, should give the production of these plants immediate consideration.

Such flowers as asters, verbenas, phlox, sweet alyssum, lobelia, and petunias are usually raised from seeds started indoors in March or April. By indoors is meant a greenhouse, hotbed, cold frame, conservatory, or even a warm sun parlor. The seeds should be sown in pans, pots, or small flats. Many people use cigar boxes for the first sowing.

The soil to be used should contain a good portion of fibrous loam, but need not contain any manure and at no time should any fresh manure be mixed through it. The usual mixture used by gardeners contains an equal proportion of well pulverized leaf mould, good garden loam and sand. This should be screened through a quarter or a half-inch sieve to remove any stones and rubbish which it is likely to contain. If boxes are used, holes should be bored in the bottom to insure good drainage. These should be filled with the compost almost to the brim and gently pressed down.

All the above mentioned seeds can be sown on the surface and gently imbedded in it by pressing down with a flat board and lightly as possible, and shade from hot sun by placing newspapers over them.

Watering is Vital Point

Careful attention should be paid to watering, never allowing the earth to become dry, and still caution must be exercised regarding over-watering, which is liable to cause the seeds to rot before germinating. The rotting often takes place when the atmosphere is not sufficiently warm to start germination.

If they tend to get drawn up "spindly," the top of the plant should be pinched off, thus causing it to branch. This insures good bushy plants for planting out during the months of May and June.

Caution About Annuals

In transplanting seedling plants such as petunias, stocks and pansies, there is a natural inclination to set out the strongest and best specimens from the seed bed in case all cannot be used, leaving the feeble, unpropitious looking ones back. As a rule the reverse of this is the course that should be followed, for the reason, that usually it is the weaker plants that bear the best flowers. These plants, set apart so as not to be crowded by the stronger growers, will generally develop into good specimens that will bear superior flowers. Just this kind of discrimination or the lack of it is sufficient to account for the widely different results that so often follow in the cultivation by different growers of plants from the same seed.

Advertisement for Sewer Construction

Sealed bids will be received by the Council of the City of Albany, Oregon until 7 p. m. March 24, 1920 for the construction of an 8" lateral sewer beginning at a manhole to be constructed in the Railroad Street trunk sewer midway between Second and Third Streets and running thence easterly through the center of Blocks 104, 111 and 112 of Hackman's Addition to the City of Albany, Oregon, a distance of 375.2 feet, or so much of the present lateral sewer in place as shall be found deteriorated to the extent that it needs replacement.

Said sewer construction to be made in accordance with the charter and the ordinances of the City of Albany and the plans, specifications and estimates of Engineer John R. Pepland on file in the office of the Recorder where plans may be seen and specifications and estimates obtained.

Bids will be opened at 7:30 o'clock p. m. March 24, 1920.

No proposal or bid will be considered unless accompanied by a certified check payable to the City of Albany in an amount equal to five percent of the aggregate bid, to be forfeited as fixed and liquidated damages in case the bidder neglects or refuses to enter into a contract and provide an approved bond in the sum of \$150.00 for the faithful performance of the contract.

All bids must be made with a view of completing the construction of said sewer prior to the 15th day of June, 1920 under a liquidated penalty of \$2.50 for each day of delay beyond that period.

All bids should be addressed to "Recorder of the City of Albany, Oregon," marked "Proposal for construction of lateral sewer beginning at manhole in Railroad Street."

By order of the Council. L. G. LEWELLING, Recorder of the City of Albany m. 15-25.

NOTICE OF SALE OF GOVERNMENT TIMBER

General Land Office, Washington, D. C., February 11, 1920.

Notice is hereby given that subject to the conditions and limitations of the Act of June 9, 1916 (39 Stat. 218), and the instructions of the Secretary of the Interior of September 15, 1917, the timber on the following lands will be sold April 2, 1920, at 10 o'clock A. M., at public auction at the United States land office at Roseburg, Oregon, to the highest bidder at not less than the appraised value as shown by this notice, sale to be subject to the approval of the Secretary of the Interior. The purchase price, with an additional sum of one-fifth of one percent thereof, being commissions allowed, must be deposited at time of sale, money to be returned if sale is not approved, otherwise patent will issue for the timber which must be removed within ten years. Bids will be received from citizens of the United States, associations of such citizens and corporations organized under the laws of the United States or any state, territory or district thereof only. Upon application of a qualified purchaser, the timber on any legal subdivision will be offered separately before being included in any offer of a larger unit.
