Wm. Robertson, one of our most prosperous farmers is improving his farm by the cultivation of more land. He is clearing land on the river bottom.

NEW HAIR after BALDNESS

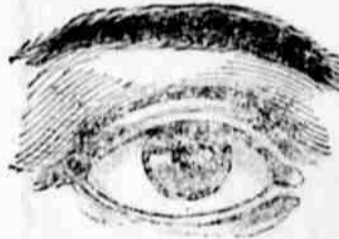

IF YOU are losing hair fast, balding or are bald, let it be known that WYETH'S Sage and Sulphur Compound will restore your hair to its natural color and luster. It is the only preparation that does this. It is not intended for the cure, mitigation or prevention of disease.

COMB SAGE TEA INTO GRAY HAIR

Darkens Beautifully and Restores Its Natural Color and Lustre at Once.

Common garden sage brewed into a heavy tea, with sulphur and alcohol added, will turn gray, streaked and faded hair beautifully dark and luxuriant. Mixing the Sage Tea and Sulphur recipe at home, though, is troublesome. An easier way is to get the ready-to-use preparation improved by the addition of other ingredients in a large bottle, at little cost, at drug stores, known as "Wyeth's Sage and Sulphur Compound," thus avoiding a lot of fuss.

While gray, faded hair is not sinful, we all desire to retain our youthful appearance and attractiveness. By darkening your hair with Wyeth's Sage and Sulphur Compound, no one can tell, because it does it so naturally, so evenly. You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning all gray hairs have disappeared. After another application or two your hair becomes beautifully dark, glossy, soft and luxuriant and you appear years younger. Wyeth's Sage and Sulphur Compound is a delightful toilet requisite. It is not intended for the cure, mitigation or prevention of disease.

ACID IN STOMACH SOURS THE FOOD

Says Excess of Hydrochloric Acid is Cause of Indigestion.

A well-known authority states that stomach trouble and indigestion are nearly always due to acidity—acid stomach—and not, as most folks believe, from a lack of digestive juices. He states that an excess of hydrochloric acid in the stomach retards digestion and starts food fermentation, then our meals sour like garbage in a can, forming acrid fluids and gases which inflate the stomach like a toy balloon. We then get that heavy, lumpy feeling in the chest, we eructate sour food, belch gas, or have heartburn, flatulence, water-brash, or nausea.

He tells us to lay aside all digestive aids and instead, get from any pharmacy four ounces of Jad Salts and take a tablespoonful in a glass of water before breakfast while it is effervescent, and furthermore, to continue this for one week. While relief follows the first dose, it is important to neutralize the acidity, remove the gas-making mass, start the liver, stimulate the kidneys and thus promote a free flow of pure digestive juices.

Jad Salts is inexpensive and is made from the acid of grapes and lemon juice, combined with lithia and sodium phosphate. This harmless salt is used by thousands of people for stomach trouble with excellent results.

tom which cannot be surpassed for its productive qualities.

Dale Loftin and Harland Brock both ex-service men are busy these days producing lumber. They are using Mr. Brock's father's mill which has been idle most of the time since J. M. Wilcy operated it years ago. The power is supplied by water which in other seasons drives the flour mill.

The flu is practically over here. Only a case or two remains. One of the last was Francis Grieg who is now getting out. He took a backset which kept him in bed for about three weeks. He and Vina Collins H. S. students in Lebanon have not returned to school yet.

Three years ago the road between Lebanon and Santiam was regraded. Since then scarcely a bit of work has been done on it. The road is in very bad condition in places.

SALEM BOY SCOUTS TO GO CAMPING

The Boy Scouts, of Salem about 150 in number, are preparing, under the leadership of Executive scout leader Harold Cook, to make a trip to the mountains near McCradie springs Lane county during the summer. One of the new features of the camp will be talks, by experts about the forests, wild life, nature study, and kindred subjects. The cost to the boy of the summer camp of the boy scouts of America is said to be less than \$1.00 per week possibly cheaper than living at home. There is to be a corp of paid leaders at the summer camp of the Salem boys, including two paid cooks. Albany boy scouts are on the list for as good treatment as the Salem boys. Plans for the summer will probably be announced in the near future.

MASS MEETING ON SCHOOL PROBLEMS

The school row, at Eugene, appears to be still on the docket of public affairs. The school board has received a communication inviting the board to be present at a mass meeting this evening for the purpose of discussing matters between the board and the teachers, says the Eugene Guard. The board has declined to discuss the matter but will, if requested, send a representative to make a statement outlining the position of the board which may lead to a better understanding. The conference to be held in this city, Friday of this week, has for one of its purposes, the discussion of a uniform system that will tend to prevent such difficulties as has been up for public discussion at Eugene.

MRS. ELLIS WILL ADDRESS LOCAL H. S. STUDENTS

Jean Morris Ellis, the well known vocal guidance expert and character analyst, will spend Wednesday and Thursday of this week in Albany. Her first address will be at the High School assembly at 9 o'clock Wednesday morning. Personal interviews will

follow that address. Ex-service men will have the first claim on her time for personal interviews.

Mrs. Ellis is brought here by the local educational service council of the Y. M. C. A. of which A. C. Schmitt is chairman. She is known in Albany, having been here with the Boys' Conference last fall, and many of her friends will be glad to know of her return visit.

Of Interest To Women

In Texas is a young woman who makes \$5,000 a year raising turkeys. Indianapolis high school girls are not permitted to wear silk stockings to school.

Skating has been the popular diversion during the past winter among New England college girls.

The next election in Manitoba is expected to see several women candidates for the Provincial legislature.

The first woman to receive a doctor's degree from famed Heidelberg university was an American—Miss Emma Little.

A truckload of hay was the unique wedding present recently received by the bride of a horse trainer at the famous Newmarket course in England.

The Lucknow Women's College, the first Christian college for women in Asia, was established by Miss Isabella Thoburn, a sister of Bishop Thoburn.

Mrs. Minnie Madder Fiske, the celebrated actress, is a life member and active worker of the Society for the Prevention of Cruelty to Animals.

In some of the small towns and villages of England the art of pillow-lace making has been handed down from mother to daughter for hundreds of years.

The distinction is claimed for Wesleyan Female College, of Macon, Ga., that it was the first woman's college in the world. It was established by the Methodist Episcopal Church, South, in 1836.

Mrs. Finley J. Sheppard (formerly Miss Helen Gould) has received in a single week more than 1,000 begging letters asking for sums aggregating several million dollars. Many are from prospective brides asking for money to buy wedding trousseaus.

Critics who declare women unfitted for politics probably never heard of Mrs. Ella Knowles Haskell, who, some years ago, came within a few votes of election as attorney-general of Montana, and who afterwards married her successful opponent, and was then appointed assistant attorney-general.

Probably no other woman in England has taken so large a part in public life and philanthropy as has the Queen Mother Alexandra. It has been estimated that through her personal influence and direct action, during the nearly six decades since she first came to England as a bride, she has secured contributions amounting to something like \$300,000,000 for charities. It is a fact not widely known that

the famed Easter lily industry of Bermuda owes its origin to a woman—Mrs. George Russell Hastings, a niece of President Rutherford B. Hayes, to planted some bulbs, and finding that they took kindly to the thin, rich soil of the islands, encouraged the farmers to raise them. Lilies proved more profitable than onions, and the number raised has increased every year.

At one time, two of the richest bankers in London were women—the Duchess of St. Albans and the Countess of Jersey—having succeeded to the position through family connections. Both peeresses made it a practice to pay regular visits to their respective establishments to confer with the officials and inspect the books.

Queen Adelaide, consort of King William IV. of England, was a Ger-

man princess and had a very slight acquaintance with the English language. One of the first sentences she learned by heart was: "How are you off for soap?" Her Majesty was so pleased at being able to speak a little English that she asked this a New York woman is said to earn more than \$5,000 a year designing favors and bonbon boxes.

The first postmaster of Baltimore was Mary Katherine Goddard, who served from about 1773 to 1790.

Women are still without electoral rights in all the Latin-American republics and in the four Latin countries of Europe.

A Hindu girl, after her twelfth year is not allowed to talk to boys, except to the nearest relatives or family friends.

It is a curious fact that nearly all the striped tights worn by Jockeys on

European ree-courses are woven by the nuns of Sienna.

Seattle, Indianapolis, and Washington, D. C., are the only cities of the United States that maintain separate bureaus of policewomen.
