Sport Gossip

Manager George Gibson has eleven pitchers with his squad of Pittsburgh Pirates.

Pitcher Eddie Gill, last year with the Holy Cross intercollegiate champions, is trying out with the Washington team.

Joe Mulrennan, a Woburn (Mass.) high school pitcher, is performing like a top-notch heaver with Joe Tinker's Columbus team.

The Cincinnati Reds appear to be in good shape and should be able to show true championship form when the season starts.

Catcher Ed Sweeney, formerly with the New York Yankees, has signed with the Kansas City team of the American association.

The veteran Eddie Foster will most likely hold down third base for the Red Sox, in case Oscar Vitt makes

good his threat to quit the team.

As the White Sox were the last major team to get into camp, Manager Gleason must believe in a short and strenuous training season.

Jack Graney has suffered a severe attack of influenza and will not be able to join the Cleveland Indians for some time.

If the rookies who have been hitting home runs in practice games are able to continue their good work more than one big league manager will be a happy pilot.

A scarcity of pitchers has proved a big handicap to the Boston Braves' spring training. Big leaguers need lots of pitching in order to get a batting trim.

Hooper, Menosky and Hendryx look good in the Red Sox outfield and in all probability they will make up the regular outer works for the Barrows outfit.

With four or five of the regulars absent from the training camp the White Sox have been up against it in their efforts to perfect their team work.

Spokane Has Track Team

SPOKANE, March 25.—For the first time in the athletic history of Spokane university, track work will be added to the schedule of athletic activity during the 1920 season. George Booles, a senior in the institution, has been elected manager and C. W. Simpson will direct the track work.

One Look at This New Chalmers Makes You Want It

YOU can't get into an argument about the beauty of this new Chalmers. Everyone admits it. Just one look suffices. Its coach, with large square doors, infinite detail, engaging appointments, superior high finish establishes a precedent.

And when you sink into those new type cushions that tilt deeply you say to yourself: "Here is comfort, indeed." Then let loose the power stream. Note the silence. You can scarcely hear a sound. Watch for vibration. You detect none—not even the semblance of a fender quivering.

All throbbing is gone. Hot Spot and Ram's-horn make sure this rhythm. They "digest" the gas before it gets inside the engine, and they "feed" each cylinder quickly and evenly.

They make results de luxe in power, and that is why so many now say Chalmers is one of the few great cars of the world.
