

FINE TEMPLE FOR THE KNIGHTS

\$30,000 Building Will Be Erected by the Members of K. P. Lodge on Lyon Street.

WILL BUILD ONE OF BEST LODGE BUILDINGS IN WEST

Step Contemplated by Lodge for Sometime Has Been Definitely Agreed Upon.

It was learned today that plans for the erection of a \$30,000 Knights of Pythias temple have been definitely agreed upon, and work on the building will be started in the near future.

L. M. Carl, a supreme representative of the order in this domain, when interviewed this morning said: "The members of the lodge have been considering the erection of this building for some time and from a decision reached at a recent meeting it was definitely decided that the building is to be built before very long. Although the plans and specifications are not in the hands of the architect, they will be within the next few days. However, I will say that the plans drafted are for a magnificent building with all the modern conveniences, including the comforts and accessories of a model club building. It is our desire to make this club the best equipped and most hospitable in the state, firmly believing a lodge should be on this order, as we have always maintained. I am frank in my belief that when the building is completed it will be the best equipped lodge building, excepting none, in this part of the valley."

The building will occupy a quarter block at the northwest corner of Lyon and Third streets. The entire site will be excavated for a concrete basement, over which the splendid building will be constructed of white pressed brick, two stories in height. The lower floor will contain two large store rooms with dimensions of 50x34 feet. These rooms have already been rented, but the parties who have leased them are not ready to announce the fact at this time. A broad stairway will enter from the middle of the building from Lyon street, forming the main entrance and a stairway will also enter from the southwest corner on Third street. The second floor will contain a spacious and appropriately appointed lodge room, a magnificent banquet room with all conveniences and a model kitchen. An attractive ladies' parlor and a complete library will form two other essential features of this floor. The second floor will also contain four or five neat apartments, suites of from 3 to 4 rooms each, which will be rented to anyone who desires them.

In the basement will be located the latest heating and hot water apparatus and this will be maintained for use over the entire building together with other modern conveniences.

Although he was not at liberty to give the exact date when the work would start, Mr. Carl intimated that it would be some time within the next few weeks.

CITY SUPERINTENDENT WILL ENFORCE RULES

Urges Parents to Co-operate with Instructors in Enforcement of Regulations.

In reference to an article which appeared in yesterday's Democrat, relating to the conduct of some school children at the corner of Sixth and Madison streets, Professor Boettcher, superintendent of schools, requested a representative of this paper to make a few remarks in his behalf, to the effect that if school children are seen disregarding the rules of their schools, it is his earnest desire that at the matter be reported to him. He says that school let out before 4 o'clock and that there is no reason why the children shouldn't be at home by that time.

The rules of the public schools of this city are that the students should go immediately home after school and report to their parents," said Mr. Boettcher, "and then they are at their liberty. Of course it is impossible to see that all the children reach home, but nevertheless, I have intercepted a good many loitering on the way and have sent them on. I do not approve of the boys congregating on the street corners and acting as it was reported at Sixth and Madison streets, and I am determined to put a stop to it. Parents must realize the necessity of helping the teachers, who have been instructed fully in making the children obey the rules, and report any case of disobedience. There are a good many school children in this city, and with the united efforts of the parents and teachers, the children could be kept under closer surveillance. They can be kept out of mischief and from associating with the wrong environments."

YOUNG MAN ARRESTED FOR SPEEDING LAST NIGHT

Chief of Police Austin Says He Will Arrest Any Citizen Violating Ordinance.

A young hopgrower residing in the vicinity of Albany was arrested yesterday afternoon on West First street by Chief of Police Austin for speeding. It is charged that the man had exceeded the speed limit several times before he was arrested.

He was taken before Police Judge Van Tassel immediately following his arrest and put up bail of \$15 for his appearance in the police court this morning. Upon his appearance a fine of \$10 and costs was imposed upon him, which was paid.

Chief Austin says that there must be a stop put to the excessive speeding of automobiles in this city and that all the policemen have been instructed to arrest any automobilist disregarding the speed limit. The chief points out the increased traffic on the thoroughfares of the city and claims that speeding automobiles in the narrow streets continuously hazards the lives of pedestrians.

"I am determined to be vigilant on this phase of law-breaking," said Chief Austin this morning. "There isn't hardly a day but what someone gets run over and killed by an automobile in some place. Why look what happened in Portland yesterday—a prominent lawyer being killed by an automobile. If it is within my power I will certainly see that such a thing does not happen in Albany."
