

ALBANY HAS FAST BASEBALL TEAM

Many Players of Last Season Are Included in Present Line-Up.

MADE SPLENDID SHOWING AGAINST PROFESSIONALS

Local Athletics Are Assuming Hustling Proportions; Season on in Full Blast.

That Albany will be represented by a fast baseball team during the coming season, is indicated beyond a doubt from the showing the boys have thus far made against the two professional teams they have played.

About three weeks ago Manager Senders unhesitatingly sent his aggregation onto the field for a battle with Nick Williams, Portland Northwest league "Colts," when that team stopped off here enroute to Portland, after several months hard training in Southern California. The local boys had had no practice whatever save the individual work outs at home, nor had they been together for practice as an organized baseball team before tackling the husky Portland lads. The field on that day was in poor condition for fast baseball but nevertheless Nick Williams' bunch didn't walk away with Albany, looking at it from a view point of amateurs vs. professionals, for the score was only 9 to 3 in Portland's favor. Even Coach Garrett's O. A. C. aggregation failed to make a better showing than this, and they too have had several weeks' training prior to taking on the "Colts" training here, when William's bunch piled up a score of 11 against the Aggies 1.

Even when the Albany boys tangled with Manager Hulen's Canadians last Sunday, baseball critics say that they made a much better showing against those formidable adversaries than O. A. C. ever made in previous games played with the same bunch. Up to the present time the Canucks have defeated the Aggies five games with apparent ease and they only defeated Albany last Sunday by a score of 3 to 1.

Manager Senders has undoubtedly got some southpaw pitcher in Bill Patterson and his pitching specialties have meant much to the success of the team thus far and he will be a strong factor throughout the season. His baseball experience has been confined closely to local baseball circles, although it has been said that "Bill" can play in much faster company.

Bill Salisbury, an old timer, is another member of Senders' pitching staff and many fans can recount the thrilling games this veteran has pitched and won from his sheer ability to twist the spindles. "Sam" as he is familiarly known, can do it again and will be Senders' main laid up or when he is playing on the bench. Lyle Bigbee, the sensational youngster with the big whip, will probably not be included on the pitching staff until he completes the season with the University of Oregon team. In the event he would play with the local aggregation, according to the rules of the university, he would become ineligible to play with the varsity team on the grounds of having participated in semi-professional ball.

Everybody knows what Dave Patterson means behind the bat as he has ably sustained this position for many seasons past with the local aggregation. Carson Bigbee, the third sacker, is undoubtedly the fastest ball tosser in this section and has established an

DELEGATES AND ALTERNATES ELECTED FOR CONVENTION

Albany Camp 103 W. O. W. Chose Their Representatives Last Evening.

Albany Camp 103 W. O. W. at the meeting last night elected delegates and alternates to attend the third District woman's convention at Salem May 21.

Salem's camp has made all arrangements to show the boys a fine time. Albany Camp expects to take their team and will pay half of the car fare of every member of the camp who wishes to attend. All those who desire this trip should hand in their names to the clerk as soon as possible so the necessary arrangements can be made for transportation, as Salem camp wants to know how many are to take advantage of the trip.

The delegates and alternates who were elected are as follows: delegates, J. H. Kaufman, L. Veireck, H. Babb, Julius Voss and J. S. Monosmith. Alternates: Ed. Schoel, G. M. Junkin, F. T. Blount, G. K. Davis and G. M. Knox.

By order of C. C. F. T. BLOUNT

HAROLD DAVIS TO BECOME A BENEDICT TOMORROW

Mr. Harold Davis and Miss Zelma Bones, two prominent young people of Alsea, will be united in marriage tomorrow afternoon at the home of the bride's parents at that place.

Mr. Davis is a son of Rev. Davis, of Alsea, a former pastor of the Baptist church of this city, and both are well known here. The benedict to be is a cousin of Edward Viereck, of this city.

Miss Bones is a daughter of Mr. and Mrs. Sam Bones, of that city. Mr. Bones is the proprietor of the Hotel Alsea.

News on This Page is From Daily Issue of SATURDAY, APRIL 26

enviable reputation as such. He not only excels in the field but also at the bat and will prove to be a valuable asset for Senders' team during the season. Colbert and Swan, two Corvallis lads, will be permanent fixtures at first and second bases respectively. Both are experienced ball players and have thus far established splendid records by their assistance for the team. It appears to be doubtful whether Lee will hold out at short.

Senders' fielding staff is comprised of A. A. Mickle, C. Mickle, Charlie Monson, Gordon Ryals and A. Martin. A. Mickle and Monson, who played with the last year team, will probably be permanent fixtures in the left and center field, the positions they played so well last year, while it will be nip and tuck with the others for the other field positions. All of the fielders have been given a tryout and have showed up well and it is probable that Senders will retain all of the above named players thus far signed up, throughout the season.

During his stay here Manager Hulen has made several warm friends who wish to see him back here again next year.

Albany's decision to become a "B" athletic center if the people show the proper spirit towards such enterprises. Last year the Oregon-O. A. C. football game was played here and it will be played here again next fall. Albany has been the training camp for the local team during this spring, in the Reginas. Maybe the city doesn't get some good free advertising out of it.

10,000 CANADIANS MAY LOCATE HERE

People Representing That Number Send Emissaries to Look Over This Valley.

DELEGATION OF 4 WELL-TO-DO SASKATCHEWAIANS HERE

If They Find Conditions Favorable Unprecedented Horde of Settlers Will Come.

Willamette Valley and Southern Oregon may receive an increased population of fully 10,000 people through one single exodus of farmers from Canada alone, in the next year or two.

A delegation of four well-to-do landowners of Saskatchewan Province is conducting a quiet investigation of the Willamette, Umpqua and Rogue River valleys, as the representatives of more than 3500 Canadian farmers who are desirous of joining one vast immigrative movement to Oregon.

In case the delegates now in this state find that the prices of lands in the territory tributary to Portland markets are reasonable, adequate and that the markets are of easy access, this unprecedented horde of new settlers will make arrangements to dispose of their Canadian lands and come to Oregon as soon as possible. It is estimated on good authority that with the families and children of these farmers it will mean a new population of at least 10,000 and probably nearer 12,000.

The four delegates are being conducted through the Willamette valley by W. H. Jenkins, traveling passenger agent of the Southern Pacific, and will gather their data upon which to base their recommendations from the sections tributary to Albany, Salem, Eugene, Corvallis, Roseburg and Grants Pass.

They arrived here the first of the week, and departed on this tremendously significant mission Wednesday night. They were provided with letters of introduction to the leading bankers of the city by the agricultural committee of the Oregon State Bankers' Association, and the Canadians will make their preliminary survey of the Western Oregon through conferences with these bankers, one of whose principal functions is to be thoroughly familiar with what constitutes fair values for farm lands in the communities they serve.

Chairman Olmstead also wrote personal letters to these financiers advising them of the purpose of the investigating tour of the Saskatchewan farmers. The most important phase of the situation is that the visiting delegates will have nothing whatever to do with real estate operators during their stay in the Oregon valleys. They will be put in touch with the actual landowners, big or little tracts, directly upon the recommendations of the bankers in these various cities, and will deal directly with the owners.

Inasmuch as several different sections are being investigated, it naturally behooves the bankers in the different localities to make the best possible showing to the committee.

In dealing with owners at first hand, not only will inflated prices and exorbitant commissions be avoided, but the Canadians will be able to get much more reliable information about the soil, drainage, rainfall, kinds of crops, etc., than they could by resorting to the glowing pamphlets of the realty brokers.

The moving cause in bringing the Saskatchewan struggle here is the hard and severe drought they have had against the inhospitable climate of the North, the short season and the narrow limits to the character of the crops that can be raised.

This movement is further interesting for the reason that it is the preliminary step toward the future official activities of the Oregon State Bankers' Association in assisting in marketing agricultural lands of the state at reasonable prices and on easy terms in cooperation with the commercial bodies of the different cities of the state.—Portland Telegram.

President Kerr, of the O. A. C. was in the city last evening on his way to Portland.

Lawyer Glas, of Corvallis, was in the city last evening.
