

## PHYSICIANS FAVOR THE MUZZLE

Members of Medical Profession Claim That Muzzle Is Preferable to Chain.

DOCTORS AGREE WITH CITY HEALTH OFFICER DAVIS

Lack of Exercise Causes Disease Among Dumb Animals; Dangerous to Public.

Continued from Wednesday, August 6

Agreeing with the statement given out to the Democrat several days ago by City Health Officer Dr. W. H. Davis, local physicians who were seen this morning by a Democrat representative asserted that an ordinance requiring owners of dogs to muzzle the animals during the hot weather would be preferable to one now in force in Albany.

Many citizens contend that the question as to whether the dogs should be tied up or muzzled, should be left optional with the owners.

The following are the statements given out by local members of the medical profession, who were seen by the Democrat:

**Dr. Wallace:** "There have been no 'mad' dogs in Albany this year but the practice of keeping them tied up is almost certain to cause disease. The muzzle should in my judgment be substituted for the plan of keeping the dogs tied up."

**Dr. Shinn:** "When a dog is unduly restrained it is likely to produce disease. In my judgment an ordinance requiring dogs to be muzzled during the hot weather would be preferable to the present plan."

**Dr. Stark:** "Medical authorities are united in the opinion that the muzzle is the only sensible solution of the so-called dog question. Tie a dog up continually and you will soon have an unhealthy animal. The danger to the public comes from muzzled dogs. In my opinion the present ordinance should be repealed."

**Dr. Tracy:** "Dogs are perfectly safe when muzzled during the hot weather. They are not when merely chained. An unhealthy condition is produced in an animal when he is not permitted to obtain exercise. Keeping them tied up continually may produce fits or other forms of disease. It seems to me that the public would be benefited by adopting the muzzle during the hot weather, in preference to the present plan, and that the dog is entitled to more humane treatment than he now receives."

**Dr. Robnett:** "There is no question but what 'muzzling' confinement will cause a dog to become cross and will oftentimes produce disease. It is my opinion that dogs should be muzzled and not tied up during hot weather."

The following interview was given out to the Democrat on August 4th by Dr. Davis, city health officer for Albany:

"In my judgment an ordinance requiring the owners of dogs to keep the animals muzzled during the hot weather would be preferable to the idea of keeping them tied. When a dog is tied up continually and thereby prevented from obtaining exercise, this may, and often is a contributing cause of fits."

An effort was made to get in touch with other local physicians this afternoon but those called upon were not in their offices.

## LIGHTNING ALMOST CAUSES FATALITY NEAR LACOMB

Albert Downing While Working in Field Was Shocked by Flash.

Lacombe, Aug. 6.—Fatalities resulting from lightning are rare occurrences in the Willamette valley, but Albert Downing, son of T. M. Downing, who owns a farm near Lacombe, came near being a victim of one of the rare exceptions.

Mr. Downing, junior, in company with a neighbor, Haman Gaines, was working in a hay field on his father's farm last Friday afternoon when a severe storm visited that section. In a hurry to get the hay under cover the husbandmen paid little attention to the inclement climatic conditions until the lightning struck within a few feet from where the men were working. Both of them are said to have been more or less affected from the shock but Mr. Downing's condition seemed more serious. He was rendered suddenly unconscious and remained in this condition for some time.

**Leaves on Long Auto Trip.**

## ALBANY AT HEAD OF PROCESSION

Hub City Leads in Municipal Cleanliness, says E. M. Underwood.

MANAGER STEWART RECEIVES SPLENDID LETTER

Association of Credit Men Commends "Clean Up" Spirit Here.

That the Portland Association of Credit Men has been attracted to the cleanliness of the city of Albany, resulting in that association's commending the "clean up" work waged here, in the highest of terms is indicated by a letter received by Manager Stewart of the Commercial club from E. M. Underwood, chairman of the fire insurance committee of the organization.

The letter runs as follows: "One of our members has handed me a clipping from an Albany paper regarding your city 'clean up.' We are pleased to note that you are working along this line. Our committee is interested in this 'clean up' proposition both as a matter of cleanliness and sanitation, and also as a matter of fire hazard. We all know that these vacant lots covered with weeds get as dry as powder along in August and are a dangerous proposition. Our committee is especially pleased to see the interest and activity that is being taken by the different cities all over the state and we are glad to see that Albany is right at the head of the procession. We are working on a new ordinance in Portland and we have hopes that it is going to give us fine results."

## FARMING CONDITIONS NEAR TANGENT IN GOOD SHAPE

Threshing Will Commence Soon ---Gardens Are Producing Splendid Yields.

Tangent, Or., Aug. 6.—(Special to Democrat).—The new threshing outfit of J. S. Nicewood & Co. is prepared to commence threshing this week. A few hundred sacks of barley have been threshed and the owners were well pleased with its work. It is an Aultman Taylor machine and will be used to hull clover as well as threshing grain.

Fall grain is now all in the shock and will soon be ready for threshing. Spring grain looks fine but the oats are becoming rusted a little.

Clover seed is now about ready to be cut and from appearances will yield a big crop. Gardens are extra good and all vegetables are plentiful, much of which will go to waste for lack of a ready market. Farmers are very busy now, they succeeded in getting their hay cared for in good condition and now for the next month they will be looking after the grain harvest.

Pastures are drying up very fast and much of the stock will have to be fed before the fields are opened.

## HAMMER WAS COMMITTED TO STATE INSANE HOSPITAL

Had Presentiment That Young Lady Was Paying Him Marked Attention.

After an examination before County Judge McKnight, conducted by Dr. W. H. Davis, John J. Hammer, age 49, was committed to the state insane hospital this morning.

Hammer was given a preliminary hearing yesterday and the case was held over today for final action.

With the presentiment that a young lady was paying him marked attention, resulting in his addressing her several letters, to her great annoyance, the complaint against Hammers actions was filed in the county court. Much extenuating evidence was introduced in the hearing, serving to strengthen the charge that the man was mentally unbalanced. Hammer for years has been employed as janitor here at various places.

Ray Briggs of Grants Pass, is a business visitor in the city today.
